

WHAT DRIVES US?

Your health is our passion and our community's future. We bring a unique combination of strengths devoted to the entire continuum of health. Through our partnerships, we've created new models for learning that empower health professionals to discover better solutions for health. We do this to enhance and protect the lives of everyone we touch – yours, ours, within our community, and throughout the world.

USF HEALTH

We are an enterprise for change in the way we understand health and how it transforms our quality of life.

OUR MISSION is to envision and implement the future of health.

OUR COMMITMENT is to improve the full spectrum of health, from the environment, to the community, to the individual.

TOGETHER + TALENT + INNOVATION
USF Health is integrating research, education and health care to reach our shared value — making life better.

=

TOGETHER

Our unique collaboration of research, education and health care creates partnerships both within our walls and with our affiliated institutions — our USF Health partners.

Through the compassion and diversity of our people, we aim to create memorable relationships. As we learn together, we create powerful partnerships for life.

+

TALENT

With the most respected and diverse talent, working with a shared entrepreneurial spirit, we are creating real-world solutions to life's problems.

At USF Health, we have the leading researchers, educators and clinicians working together in a symbiotic relationship to turn science into health.

The care of patients provided by USF Health is guided by research and focused on memorable experiences based on quality, service, safety and the continuum of care.

+

INNOVATION

We're working on innovative solutions to change the future of the health profession.

We're incorporating the use of advanced technologies, which strengthens our abilities as caregivers. We're using research to bridge the gaps in the healthcare system.

This leads to the creation of a national model for education and care devoted to the continuum of health. This combination of talent and innovation places us in a powerful position to anticipate tomorrow's health needs today and develop breakthrough answers.

USF HEALTH:
TO ENVISION AND IMPLEMENT
THE FUTURE OF HEALTH.
