Table of Contents

Instructions

How to Use This Guide.	5
Mother	7

Facility Information

Facility name	7
Facility ID	8
City, town, or location of birth	8
County of birth	8
Place where birth occurred (Birthplace)	9

Prenatal Care and Pregnancy History

Date of first prenatal care visit.	10
Total number of prenatal care visits for this pregnancy	10
Date last normal menses began	11
Number of previous live births now living.	12
Number of previous live births now dead	13
Date of last live birth	13
Number of other pregnancy outcomes.. . . .	14
Date of last other pregnancy outcome.. . . .	14
Risk factors in this pregnancy.	14
Diabetes	15
Prepregnancy.	15
Gestational	15
Hypertension	16
Prepregnancy.	16
Gestational	16
Eclampsia	16
Previous preterm births	17

Pregnancy resulted from infertility treatment	18
Fertility-enhancing drugs, artificial insemination, or intrauterine insemination	18
Assisted reproductive technology	19
Mother had a previous cesarean delivery.	19
Infections present and/or treated during this pregnancy.	20
Gonorrhea	20
Syphilis	21
Chlamydia	21
Hepatitis B.	21
Hepatitis C.	21
Obstetric procedures	22
External cephalic version	22

Labor and Delivery

Date of birth.	23
Time of birth	23
Certifier's name and title.	23
Date certified	23
Principal source of payment	24
Infant's medical record number	24
Was the mother transferred to this facility for maternal medical or fetal indications for delivery?	25
Attendant's name, title, and ID.	26
Mother's weight at delivery	26
Characteristics of labor and delivery.	27
Induction of labor	27
Augmentation of labor	28
Steroids (glucocorticoids) for fetal lung maturation received by the mother before delivery	28

Table of Contents—Continued

Labor and Delivery—Continued

Antibiotics received by the mother during delivery	29
Clinical chorioamnionitis diagnosed during labor or maternal temperature $\geq 38^{\circ}\text{C}$ (100.4°F)	29
Epidural or spinal anesthesia during labor	30
Method of delivery	30
Fetal presentation at birth	30
Final route and method of delivery	31
If cesarean, was a trial of labor attempted?	32
Maternal morbidity	32
Maternal transfusion	32
Third- or fourth-degree perineal laceration	32
Ruptured uterus	33
Unplanned hysterectomy	33
Admission to an intensive care unit	33

Newborn Information

Birthweight or weight of fetus	34
Obstetric estimate of gestation at delivery	34
Sex of child	36
Apgar score	37
Plurality	37
If not a single birth, order born in the delivery	37
If not a single birth, number of infants in the delivery born alive	37
Abnormal conditions of the newborn	38
Assisted ventilation required immediately following delivery	38
Assisted ventilation required for more than six hours	39
NICU admission	40
Newborn given surfactant replacement therapy	40
Antibiotics received by the newborn for suspected neonatal sepsis	40
Seizure or serious neurologic dysfunction	41
Congenital anomalies of the newborn	41
Anencephaly	41
Meningomyelocele/Spina bifida	42

Cyanotic congenital heart disease	42
Congenital diaphragmatic hernia	43
Omphalocele	43
Gastroschisis	43
Limb reduction defect	44
Cleft lip with or without cleft palate	44
Cleft palate alone	44
Down syndrome	44
Suspected chromosomal disorder	45
Hypospadias	45
Was the infant transferred within 24 hours of delivery?	46
Is the infant living at the time of the report?	46
Is the infant being breastfed at discharge?	47
Method of disposition	47
Index of Items	48

How to Use This Guide

This guide was developed to assist in completing the facility worksheets for the revised Certificate of Live Birth and Report of Fetal Death (birth certificate [BC], facility worksheet for the report of fetal death [FDFWS], report of fetal death [FDR]).

Definitions	Instructions	Sources	Keywords and abbreviations
<p>Defines the items in the order they appear on the facility worksheet.</p>	<p>Provides specific instructions for completing each item.</p>	<p>Identifies the sources in the medical records where information for each item can be found. The specific records available will differ somewhat from facility to facility. The source listed first is considered the best or preferred source. Please use this source whenever possible. All subsequent sources are listed in order of preference. The precise location within the records where an item can be found is further identified by <i>under</i> and <i>or</i>.</p> <p>Example: To determine whether gestational diabetes is recorded as a “Risk factor in this pregnancy” (item #14) in the records:</p> <p>The first or best source is the prenatal care record.</p> <p>Within the prenatal care record, information on diabetes may be found <i>under</i>:</p> <ul style="list-style-type: none"> • Medical history • Previous obstetric (OB) history • Problem list or initial risk assessment • Historical risk summary • Complications of previous pregnancies • Factors this pregnancy 	<p>► Identifies alternative, usually synonymous terms and common abbreviations and acronyms for items. The keywords and abbreviations given in this guide are not intended as inclusive. Facilities and practitioners will likely add to the lists.</p> <p>Example: Keywords and abbreviations for prepregnancy diabetes are:</p> <p>DM–Diabetes mellitus Type 1 diabetes IDDM–Insulin dependent diabetes mellitus Type 2 diabetes Noninsulin dependent diabetes mellitus Class B DM Class C DM Class D DM Class F DM Class R DM Class H DM</p> <p>► Medications commonly used for items.</p> <p>Example: “Clomid” for “Assisted reproduction treatment.”</p>

How to Use This Guide—Continued

This guide was developed to assist in completing the facility worksheets for the revised Certificate of Live Birth and Report of Fetal Death. (birth certificate [BC], facility worksheet for the report of fetal death [FDFWS], report of fetal death [FDR])

Definitions	Instructions	Sources	Keywords and abbreviations
			<p>► <i>Look for</i> is used to indicate terms that may be associated with, but are not synonymous with, an item. Terms listed under <i>look for</i> may indicate that an item should be reported for the pregnancy, but additional information will be needed before it can be determined whether the item should be reported.</p> <p>Example: “Trial of labor” for “cesarean delivery”</p>
MISSING INFORMATION		Where information for an item cannot be located, please check “unknown” or write “unknown” (if using the paper copy of the worksheet).	

Guide to Completing the Facility Worksheet for the Certificate of Live Birth and Report of Fetal Death

Definitions	Instructions	Sources	Keywords and abbreviations
Mother			
<p>The woman who gave birth to, or delivered the infant.</p>	<p>All birth certificate information reported for the mother should be for the woman who delivered the infant.</p> <p>In cases of surrogacy or gestational carrier, the information reported should be for the surrogate or the gestational carrier, that is, the woman who delivered the infant.</p>		
FACILITY INFORMATION			
1. Facility name (BC #5, FDFWS #1, FDR #8)			
<p>The name of the facility where the delivery took place.</p>	<p>Enter the name of the facility where the birth occurred.</p> <p>If this birth did not occur in a hospital or freestanding birthing center, enter the street and number of the place where the birth occurred.</p> <p>If this birth occurred en route to a hospital or freestanding birthing center, that is, in a moving conveyance, enter the city, town, village, or location where the child was first removed from the conveyance.</p> <p>If the birth occurred in international waters or air space, enter “boat” or “plane.”</p>		

Definitions	Instructions	Sources	Keywords and abbreviations
2. Facility ID (BC #17, FDFWS #2, FDR #9)			
National Provider Identifier.	<p>Enter the facility's National Provider Identifier (NPI) number.</p> <p>If no NPI, enter the state hospital code.</p>		NPI
3. City, town, or location of birth (BC #6, FDFWS #3, FDR #5)			
The name of the city, town, township, village, or other location where the birth occurred.	<p>Enter the name of the city, town, township, village, or other location where the birth occurred.</p> <p>If the birth occurred in international waters or air space, enter the location where the infant was first removed from the boat or plane.</p>		
4. County of birth (BC #7, FDFWS #4, FDR #6)			
The name of the county where the birth occurred.	<p>Enter the name of the county where the birth occurred.</p> <p>If the birth occurred in international waters or air space, enter the name of the county where the infant was removed from the boat or plane.</p>		

Definitions	Instructions	Sources	Keywords and abbreviations
5. Place where birth occurred (Birthplace) (BC #26, FDFWS #5, FDR #7)			
<p>The type of place where the birth occurred.</p> <p>Hospital</p> <p>Freestanding birthing center No direct physical connection with an operative delivery center.</p> <p>Home birth The birth occurred at a private residence.</p> <p>Clinic/doctor’s office</p> <p>Other</p>	<p>Check the box that best describes the type of place where the birth occurred.</p> <p>If home birth is checked, check whether the home birth was planned. If unknown whether a planned home birth, write “unknown.”</p> <p>Specify taxi, train, plane, etc.</p>	<p>1st Admission history and physical (H&P) <i>under</i>–General Admission <i>under</i>–</p> <ul style="list-style-type: none"> • Admitted from home, doctor’s office, other <i>or</i>– • Problem list or findings <p>2nd Delivery record <i>under</i>–</p> <ul style="list-style-type: none"> • Delivery information • Labor and delivery summary (L&D) • Maternal obstetric (OB) or labor summary <i>under</i>–delivery <p>3rd Basic admission data</p> <p>4th Progress notes or Note</p>	<p>FBC–Freestanding birthing center</p>

Definitions	Instructions	Sources	Keywords and abbreviations
<p>PRENATAL CARE AND PREGNANCY HISTORY</p> <p>The prenatal care record is the preferred source for items 6 through 16. If the prenatal care record is not in the mother’s file, please contact the prenatal care provider and obtain a copy of the record.</p>			
<p>6. Date of first prenatal care visit (BC #29a, FDFWS #6a, FDR #23a)</p>			
<p>The date a physician or other health care professional first examined or counseled the pregnant woman for the pregnancy.</p>	<p>Enter the month, day, and year of the first prenatal care visit.</p> <p>If date information is incomplete, enter all parts of the date that are known. Report "unknown" for any parts of the date that are missing.</p> <p>If mother’s earliest prenatal care records are not available (i.e., the date of the first prenatal care visit is unavailable), report “unknown.”</p> <p>If “no prenatal care,” check the box and enter “0” for item “total number of prenatal care visits.”</p>	<p>1st Prenatal care record <i>under</i>–</p> <ul style="list-style-type: none"> • Intake information • Initial physical examination • Prenatal visit flow sheet • Current pregnancy <p>2nd Initial physical examination</p>	<p>PNC–Prenatal care</p>
<p>7. Total number of prenatal care visits for this pregnancy (BC #30)</p>			
<p>The total number of visits recorded in the record.</p> <p>A prenatal visit is one in which the physician or other health care professional examines or counsels the pregnant woman for her pregnancy.</p> <p><u>Do not include</u> visits for laboratory and other testing in which a physician or health care professional did not examine or counsel the pregnant woman.</p> <p style="text-align: right;"><i>continued on next page</i></p>	<p>Access the most recent prenatal records available. If up-to-date records are not available, contact the prenatal care provider for the most current information.</p> <p>Count the prenatal visits recorded in the record. Exclude visits for laboratory and other tests or classes in which the mother was not seen by a physician or other health care professional for pregnancy-related care. If it is not clear whether the mother was seen by a physician or other health care professional, include the visit(s) in the total number.</p> <p style="text-align: right;"><i>continued on next page</i></p>	<p>1st Prenatal care record <i>under</i>– Prenatal visit flow sheet (count visits)</p>	<p>PNC–Prenatal care</p>

Definitions	Instructions	Sources	Keywords and abbreviations
7. Total number of prenatal care visits for this pregnancy (BC #30)—Continued			
<p><u>Do not include</u> classes, such as childbirth classes, where the physician or health care professional did not provide individual care to the pregnant woman.</p>	<p>Count only visits recorded in the most current record available. <u>Do not estimate additional prenatal visits when the prenatal record is not up to date.</u></p> <p>Enter the total number of prenatal visits.</p> <p>If no visits are recorded, enter “0.” If the number of prenatal visits is equal to 0, the “no prenatal care” box should also be checked for item “Date of first prenatal care visit.”</p>	<p>See above</p>	<p>See above</p>
8. Date last normal menses began (BC #30, FDFWS #8, FDR #32)			
<p>The date the mother’s last normal menstrual period began.</p> <p>This item is used to compute the gestational age of the infant.</p>	<p>Enter <u>all</u> known parts of the date the mother’s last normal menstrual period began. Report "unknown" for any parts of the date that are missing.</p> <p><u>Do not estimate the date.</u></p>	<p>1st Prenatal care record <i>under</i>–</p> <ul style="list-style-type: none"> • Menstrual history • Labor and delivery nursing admission triage form <p>2nd Admission history and physical (H&P) <i>under</i>–Medical history</p>	<p>LMP–Last menstrual period</p>

Definitions	Instructions	Sources	Keywords and abbreviations
9. Number of previous live births now living (BC #35a, FDFWS #9, FDR #29a)			
<p>The total number of previous live-born infants now living.</p>	<p><u>Do not include this infant.</u></p> <p>Include all previous live-born <u>infants who are still living.</u></p> <p>For multiple deliveries:</p> <p>Include all live-born infants <u>before</u> this infant in the pregnancy.</p> <p><u>If the first born, do not include this infant.</u></p> <p>If the second born, include the first born, etc.</p> <p>If no previous live-born infants, check “none.”</p> <p>See “Attachment to the Facility Worksheet for the Live Birth Certificate for Multiple Births.”</p>	<p>1st Prenatal care record <i>under</i>–</p> <ul style="list-style-type: none"> • Intake information • Gravida section–L (living)–last number in series • Para section–L–last number in series • Pregnancy history information • Previous OB history • Past pregnancy history <p>2nd Labor and delivery nursing admission triage form <i>under</i>– Patient data</p> <p>3rd Admission history and physical (H&P)</p>	<p>L–Now living</p> <p><i>Look for:</i></p> <p>G–Gravida–Total number of pregnancies</p> <p>P–Para–Previous live births and fetal deaths > 28 weeks of gestation</p> <p>T–Term–Delivered at 37 to 40 weeks gestation</p>

Definitions	Instructions	Sources	Keywords and abbreviations
10. Number of previous live births now dead (BC #35b, FDFWS #10, FDR #29b)			
<p>The total number of previous live-born infants now dead.</p>	<p><u>Do not include this infant.</u></p> <p>Include all previous live-born infants who are no longer living.</p> <p>For multiple deliveries:</p> <p>Include all live-born infants <u>before</u> this infant in the pregnancy who are now dead.</p> <p>If the first born, do not include this infant.</p> <p>If the second born, include the first born, etc.</p> <p>If no previous live-born infants now dead, check “none.”</p> <p>See “Attachment to the Facility Worksheet for the Live Birth Certificate for Multiple Births.”</p>	<p>1st Prenatal care record <i>under</i>–</p> <ul style="list-style-type: none"> • Pregnancy history information– comments, complications • Previous OB history– comments, complications • Past pregnancy history– comments, complications <p>2nd Admission history and physical (H&P)</p>	<p>See above</p> <p>Expired</p>
11. Date of last live birth (BC #35c, FDFWS #11, FDR #29c)			
<p>The date of birth of the last live-born infant.</p>	<p>If applicable, enter the month and year.</p> <p><u>Include live-born infants now living and now dead.</u></p> <p>If date information is incomplete, enter all parts of the date that are known. Report “unknown” for any parts of the date that are missing. Do not estimate or guess a date.</p>	<p>1st Prenatal care record <i>under</i>–</p> <ul style="list-style-type: none"> • Pregnancy history information– date • Previous OB history–date • Past pregnancy history–date <p>2nd Admission history and physical (H&P)</p>	<p>DOB–Date of birth</p>

Definitions	Instructions	Sources	Keywords and abbreviations
12. Number of other pregnancy outcomes (BC #36a)			
<p>Total number of other pregnancy outcomes that <u>did not result in a live birth</u>.</p> <p>Includes pregnancy losses of any gestational age.</p> <p>Examples: spontaneous or induced losses or ectopic pregnancy</p>	<p>Include all <u>previous</u> pregnancy losses that <u>did not result in a live birth</u>.</p> <p>If no previous pregnancy losses, check “none.”</p> <p>For multiple deliveries:</p> <p>Include any losses regardless of gestational age that occurred before the delivery of this infant. This could include losses occurring in this pregnancy or in a previous pregnancy.</p>	<p>1st Prenatal care record <i>under</i>–</p> <ul style="list-style-type: none"> • Gravida section–“A” (abortion or miscarriage) • PARA section–“A” • Pregnancy history information– comments, complications • Previous OB history– comments, complications • Past pregnancy history– comments, complications <p>2nd Labor and delivery nursing admission triage form</p> <p>3rd Admission history and physical (H&P)</p>	<p>Miscarriages</p> <p>Fetal demise</p> <p>AB–Abortion induced</p> <p>SAB–Spontaneous abortion</p> <p>TAB–Therapeutic abortion</p> <p>Abortion spontaneous</p> <p>Septic abortion</p> <p>Ectopic pregnancy</p> <p>Tubal pregnancy</p> <p>FDIU–Fetal death in utero</p> <p>IUFD–Intrauterine fetal death</p>
13. Date of last other pregnancy outcome (BC #36b)			
<p>The date the last pregnancy that <u>did not result in a live birth</u> ended.</p> <p>Includes pregnancy losses at any gestational age.</p> <p>Examples: spontaneous or induced losses or ectopic pregnancy</p>	<p>If applicable, enter the month and year.</p> <p>If date information is incomplete, enter all parts of the date that are known. Report “unknown” for any parts of the date that are missing. Do not estimate or guess a date.</p>	<p>1st Prenatal care record <i>under</i>–</p> <ul style="list-style-type: none"> • Pregnancy history information • Previous OB history • Past pregnancy history <p>2nd Admission history and physical (H&P)</p>	
14. Risk factors in this pregnancy (BC #41, FDFWS #14, FDR #36)			
<p>Risk factors of the mother during this pregnancy.</p>	<p>Check all boxes that apply. The mother may have more than one risk factor.</p> <p>If the mother has none of the risk factors, check “none of the above.”</p>	<p>See below</p>	<p>See below</p>

Definitions	Instructions	Sources	Keywords and abbreviations
14. Risk factors in this pregnancy (BC #41, FDFWS #14, FDR #36)—Continued			
<p>Diabetes Glucose intolerance requiring treatment.</p> <p>Prepregnancy Diagnosis before this pregnancy.</p> <p>Gestational Diagnosis during this pregnancy.</p>	<p>If diabetes is present, check either prepregnancy or gestational diabetes. <u>Do not check both.</u></p>	<p>1st Prenatal care record <i>under</i>–</p> <ul style="list-style-type: none"> • Medical history • Previous OB history <i>under</i>–summary of previous pregnancies • Problem list <i>or</i>–initial risk assessment • Historical risk summary • Complications of previous pregnancies • Factors this pregnancy <p>2nd Labor and delivery nursing admission triage form <i>under</i>–</p> <ul style="list-style-type: none"> • Medical complications • Comments <p>3rd Admission history and physical (H&P) <i>under</i>–</p> <ul style="list-style-type: none"> • Current pregnancy history • Medical history • Previous OB history <i>under</i>–pregnancy related • Problem list or findings <p>4th Delivery record <i>under</i>–</p> <ul style="list-style-type: none"> • Maternal OB or labor summary • Labor and delivery admission history • Labor summary record 	<p>Prepregnancy: DM–Diabetes mellitus Type 1 diabetes IDDM–Insulin dependent diabetes mellitus Type 2 diabetes Non-insulin dependent diabetes mellitus Class B DM Class C DM Class D DM Class F DM Class R DM Class H DM</p> <p>Gestational: GDM–Gestational diabetes mellitus IDGDM–Insulin dependent gestational diabetes mellitus Class A1 or A2 diabetes mellitus</p>

Definitions	Instructions	Sources	Keywords and abbreviations
14. Risk factors in this pregnancy (BC #41, FDFWS #14, FDR #36)—Continued			
<p>Hypertension Elevation of blood pressure above normal for age, sex, and physiological condition.</p> <p>Prepregnancy (chronic) Diagnosis prior to the onset of this pregnancy—<u>does not include gestational (pregnancy-induced hypertension [PIH])</u>.</p> <p>Gestational Diagnosis in this pregnancy (Pregnancy-induced hypertension or preeclampsia).</p>	<p>If hypertension is present, check either prepregnancy or gestational hypertension. <u>Do not check both.</u></p>	<p>See Diabetes</p>	<p>Prepregnancy: CHT—Chronic hypertension Benign essential hypertension Essential hypertension Preexisting hypertension</p> <p>Gestational: PIH—Pregnancy-induced hypertension Preeclampsia Eclampsia Transient hypertension HELLP Syndrome</p>
<p>Eclampsia Hypertension with proteinuria <u>with</u> generalized seizures or coma. May include pathologic edema.</p>	<p>If eclampsia is present, one type of hypertension (either gestational or prepregnancy) may be checked.</p>	<p>See Diabetes</p>	<p>See Hypertension</p>

LABOR AND DELIVERY			
17. Date of birth (BC #4, FDFWS #16, FDR #4)			
The infant's date of birth.	Enter the month, day, and four-digit year of birth. If the date of birth of the infant is unknown because the infant is a foundling, enter the date the infant was found.	1st Labor and delivery <i>under</i> – Delivery record 2nd Newborn admission H&P	DOB–Date of birth
18. Time of birth (BC #2, FDFWS #17, FDR #2)			
The infant's time of birth.	Enter the time the infant was born based on a 24-hour clock (military time). If time of birth is unknown (foundling), enter “unknown.”	1st Labor and delivery <i>under</i> – Delivery record 2nd Newborn admission H&P	
19. Certifier's name and title (BC #11)			
The individual who certified to the fact that the birth occurred: M.D. (doctor of medicine) D.O. (doctor of osteopathy) Hospital administrator or designee CNM/CM (certified nurse midwife or certified midwife) Other midwife (midwife other than CNM/CM) Other (specify)	Enter the name and title of the individual who certified to the fact that the birth occurred. The individual may be, <u>but need not be</u> , the same as the attendant at birth.		
20. Date certified (BC #12)			
The date the birth was certified.	Enter the date the birth was certified.		

Definitions	Instructions	Sources	Keywords and abbreviations
21. Principal source of payment (BC #38)			
<p>The primary source of payment for the delivery at the time of delivery:</p> <p>Private insurance (Blue Cross/Blue Shield, Aetna, etc.)</p> <p>Medicaid (or a comparable state program)</p> <p>Self-pay (no third party identified)</p> <p>Other (Indian Health Service; CHAMPUS or TRICARE; other government [federal, state, or local]; or charity)</p> <p>The principal source of payment is important public health information and is needed to monitor access to care during delivery.</p>	<p>Check the box that best describes the primary source of payment for this delivery. If more than one source of payment for the delivery is recorded, choose the source that appears to pay for most of the delivery.</p> <p>Check the source of payment for the delivery, not the payer for the newborn care or prenatal care, if different.</p> <p><u>If “other” is checked, specify the payer.</u></p> <p>If the principal source of payment is not known, enter “unknown” in the space.</p> <p>If unsure what source of payment a given insurance falls under, check with the billing office.</p>	<p>1st Hospital face sheet</p> <p>2nd Admitting office face sheet</p>	
22. Infant’s medical record number (BC #48)			
<p>The medical record number assigned to the newborn.</p>	<p>Enter the medical record number.</p>	<p>1st Infant’s medical record addressograph plate</p> <p>2nd Admitting office face sheet <i>under</i>–History number</p>

36. Abnormal conditions of the newborn (BC #54)—Continued			
<p>NICU admission Admission into a facility or unit staffed and equipped to provide continuous mechanical ventilatory support for a newborn.</p>	<p>Include NICU admission at any time during the infant’s hospital stay following delivery.</p> <p>Do not include units that do not provide continuous mechanical ventilation. Do not include well-baby nurseries or special care nurseries (i.e., Level II nursery).</p> <p>Do not include if the newborn was taken to the NICU for observation but is not admitted to the NICU.</p>	<p>1st Labor and delivery summary record <i>under</i>–Disposition <i>under</i>–</p> <ul style="list-style-type: none"> • Intensive care nursery (ICN) • Special care nursery (SCN) 	<p>ICN–Intensive care nursery SCN–Special care nursery NICU–Neonatal intensive care unit PICU–Pediatric intensive care unit Level II nursery</p>
<p>Newborn given surfactant replacement therapy Endotracheal instillation of a surface-active suspension for treating surfactant deficiency due to preterm birth or pulmonary injury resulting in respiratory distress.</p> <p>Includes both artificial and extracted natural surfactant.</p>	<p>Check both 1st and 2nd sources before completion.</p>	<p>1st Labor and delivery summary <i>under</i>–Neonatal medication</p> <p>2nd Newborn medication administration record</p>	<p>If given to newborn after birth: Medications (given to newborn): Surfactant Survanta Exosurf Curosurf Infasurf</p>
<p>Antibiotics received by the newborn for suspected neonatal sepsis Any antibacterial drug (penicillin, ampicillin, gentamicin, cefotaxime, etc.) given systemically (intravenous or intramuscular). Does not include antibiotics given to infants who are <u>not</u> suspected of having neonatal sepsis.</p>		<p>1st Newborn medication administration record</p>	<p>Medications (given to newborn for sepsis): Nafcillin, Chloramphenicol Penicillin, Penicillin G Ampicillin, Gentamicin, Kanamycin, Cefotaxime, Cefoxitin, Vancomycin, Acyclovir, Amikacin, Ceftazidime, Ceftriaxone, Cefazolin</p>

36. Abnormal conditions of the newborn (BC #54)—Continued			
<p>Seizure or serious neurologic dysfunction Seizure is any involuntary repetitive, convulsive movement or behavior. Serious neurologic dysfunction is severe alteration of alertness. Excludes: - Lethargy or hypotonia in the absence of other neurologic findings - Symptoms associated with CNS congenital anomalies</p>		<p>1st Newborn H&P 2nd Physician progress notes <i>under</i>– Neuro examination</p>	<p>Seizures Tonic/Clonic/Clonus Twitching Eye rolling Rhythmic jerking Hypotonia Obtundation Stupor Coma HIE-Hypoxic-ischemic encephalopathy</p>
37. Congenital anomalies of the newborn (BC #55)			
<p>Malformations of the newborn diagnosed prenatally or after delivery.</p>	<p>Check all boxes that apply.</p>		
<p>Anencephaly Partial or complete absence of the brain and skull. Also called anencephalus, acrania, or absent brain. Also includes infants with craniorachischisis (anencephaly with a contiguous spine defect).</p>		<p>1st Labor and delivery summary record <i>under</i>–Infant data 2nd Newborn admission H&P</p>	<p>Anencephalus Acrania Absent brain Craniorachischisis Exencephaly Hydraencephaly</p>

Definitions	Instructions	Sources	Keywords and abbreviations
37. Congenital anomalies of the newborn (BC #55)—Continued			
<p>Meningomyelocele/Spina bifida Spina bifida is herniation of the meninges or spinal cord tissue through a bony defect of spine closure.</p> <p>Meningomyelocele is herniation of meninges and spinal cord tissue.</p> <p>Meningocele (herniation of meninges without spinal cord tissue) should also be included in this category.</p> <p>Both open and closed (covered with skin) lesions should be included.</p> <p><u>Do not include</u> spina bifida occulta (a midline bony spinal defect without protrusion of the spinal cord or meninges).</p>		See Anencephaly	Meningocele Rachischisis
<p>Cyanotic congenital heart disease Congenital heart defects that cause cyanosis.</p>		1st Physician progress notes <i>under</i> — <ul style="list-style-type: none"> • Circulation • Cardiovascular 	TGA—Transposition of the great arteries TOF—Tetralogy of Fallot Pulmonary or pulmonic valvular atresia Tricuspid atresia Truncus arteriosus TAPVR—Total/partial anomalous pulmonary venous return with or without obstruction COA—Coarctation of the aorta HLHS—Hypoplastic left heart syndrome IAA—Interrupted aortic arch

37. Congenital anomalies of the newborn (BC #55)—Continued			
<p>Congenital diaphragmatic hernia Defect in the formation of the diaphragm allowing herniation of abdominal organs into the thoracic cavity.</p>		<p>1st Infant H&P 2nd Labor and delivery summary record <i>under</i>—Infant data</p>	
<p>Omphalocele A defect in the anterior abdominal wall in which the umbilical ring is widened, allowing herniation of abdominal organs into the umbilical cord. The herniating organs are covered by a nearly transparent membranous sac (different from gastroschisis [see below]), although this sac may rupture. Also called exomphalos. <u>Do not include</u> umbilical hernia (completely covered by skin) in this category.</p>		<p>1st Labor and delivery summary record <i>under</i>—Infant data 2nd Admission history and physical (H&P) <i>under</i>—G.I.</p>	Exomphalos
<p>Gastroschisis An abnormality of the anterior abdominal wall, lateral to the umbilicus, resulting in herniation of the abdominal contents directly into the amniotic cavity. Differentiated from omphalocele by the location of the defect and the absence of a protective membrane.</p>		See Omphalocele
