

## 1<sup>st</sup> WEEKLY NEWSLETTER

### USF INTERNAL MEDICINE & PEDIATRIC DIVISIONS OF ALLERGY AND IMMUNOLOGY

This will be the first weekly newsletter from both the USF Internal Medicine and Pediatric Divisions of Allergy and Immunology. Ms. Geeta Gehi will be in charge of this project. She will coordinate this initiative with Dr. Jolan Walter, Chief of the USF Pediatric Division.

Mr. Earle Trott, a retired Army United States Lieutenant Colonel, is now the Internal Medicine Division's administrative assistant and has brought it into the 21<sup>st</sup> century via electronic media, just in time for Covid-19. Ms. Peggy Hales and Ms. Geeta Gehi are semi-retired, each working part-time for the Internal Medicine Division.

The goals of the Divisions' Newsletter are two-fold:

- 1) To keep you up to date about activities of the the Divisions' staff and faculty, i.e., patient care, teaching and research
- 2) To secure information from each of you about what you are doing, both personal and professional. So, please send information you would like to share with other students, graduates and members of the Divisions.

Please review the attached 2019 Internal Medicine Division's Annual Report. It is dedicated to Ms. Peggy Hales, Ms. Geeta Gehi, and Ms. Rebecca Muncey, who served the Internal Medicine Division for 37, 25, and 15 years, respectively. The faculty thank them for their wonderful service over the years; hopefully we can honor them at one of our future AAAAI alumni meetings. Without their help and assistance, none of what we have accomplished would have been possible.

Best to everyone.

*Dick*
