

## 2<sup>nd</sup> WEEKLY NEWSLETTER

### USF INTERNAL MEDICINE & PEDIATRIC DIVISIONS OF ALLERGY AND IMMUNOLOGY

Greetings everybody,

This is the second weekly newsletter from the Divisions. We are still on “lockdown” and meet mainly via teleconference.

The Division of Allergy and Immunology, Department of Internal Medicine, still has orientation with Journal Club on Monday mornings. In addition, the fellows discuss board review with Farnaz Tabatabaian, MD. The 1<sup>st</sup> Monday of every month, there is a research conference with Juan Cardet, MD. They also have board review with Amber Pepper, MD at 1 PM on Mondays. On Tuesday mornings, there is an hour session with Richard F. Lockey, MD, reviewing the recently published book, *Allergens and Allergen Immunotherapy – Subcutaneous, Sublingual and Oral*, 6<sup>th</sup> edition. Wednesday mornings, 7:00 – 8:00 AM, the conference covers clinical subjects. Thursday mornings, 7:00 AM, is research conference. Friday mornings, 7:00 – 8:00 AM, is board review with Dennis Ledford, MD, Seong Cho, MD, or Mark Glaum, MD. At 11:30 AM, the fellows discuss a paper proposed by the American Board of Allergy and Immunology with Mark Glaum, MD. At 3:00 PM, they go over a topic of interest or an article of interest with Dennis Ledford, MD. The discussions with Drs. Lockey, Glaum and Ledford are more informal than all other conferences.

Please see some recent publications from the Division of Allergy and Immunology, Department of Internal Medicine:

Cho SH, Ledford D, Lockey RF: Medical Management Strategies in Acute and Chronic Rhinosinusitis. *J Allergy Clin Immunol Pract.* 2020 Mar 3; 8(5): 1559-64.

The Division of Allergy and Immunology, Department of Internal Medicine, is proud to announce that the 6<sup>th</sup> edition of the much-awaited book, *Allergens and Allergen Immunotherapy - Subcutaneous, Sublingual, and Oral*, edited by Richard F. Lockey, MD and Dennis K. Ledford, MD, has been published globally, March 2020. It has been written by a distinguished group of international authors and is an extremely useful learning and reference guide for all clinicians, trainees, as well as medical students. Attached is a synopsis of the book outlining the topics covered. It was published by CRC Press/Taylor and Francis Group and can be ordered online from the following website: <https://www.routledge.com/Allergens-and-Allergen-Immunotherapy-Subcutaneous-Sublingual-and-Oral/Lockey-Ledford/p/book/9780815382218>. An e-copy of the book is also available via the website.

The book has been designated "Book of the Month" by the University of South Florida Morsani College of Medicine Shimberg Library, and the write-up for that is attached as well.

Best to everyone.

*Dick*
