and Dr. Jacqueline Squire (Class of 2020)*

Panida Sriaroon, MD
Associate Professor of Internal Medicine and Pediatrics
Director, USF Pediatric A/I fellowship training program

Intro

Dr. Sriaroon wears multiple hats. Professionally, she is:

- the Director of the new Johns Hopkins All Children's Hospital Food Allergy Clinic that provides comprehensive care for patients with food allergies including oral immunotherapy
- the Medical Director of the outpatient USF A/I clinic at Johns Hopkins All Children's Hospital
- an Associate Professor of Internal Medicine and Pediatrics at USF and the Director of the USF Pediatric A/I fellowship training program
- a site director of Food Allergy Research & Education (FARE) Clinical Network

Her Journey

Dr. Sriaroon was born and raised in Bangkok, Thailand. She received her medical degree from Chulalongkorn University in Thailand and graduated with the First-Class Honors (equivalent to *summa cum laude*). She completed her pediatric residency at Mount Sinai Hospital in Chicago and a fellowship in allergy/immunology at USF. She joined the faculty at USF and the medical staff at Johns Hopkins All Children's in 2009.

Fun Facts

- She has only dated one guy, Dr. Chak Sriaroon, who is now her husband of 17 years
- She has never been to any concert (how boring!)
- She cannot rollerblade, ice skate, ski, or snowboard (thank god she can ride a bike)
- Things people think she does often which she barely does.....exercise

Proudest moment

Successfully carried out a 10-year ACGME Site Visit without any citation.

Dr. Sriaroon is an outstanding clinician and a valued colleague and faculty member in the Division of Allergy and Immunology. It is a pleasure to work with her.

With warm regards,

Richard F. Lockey, MD
Distinguished University Health Professor
Joy McCann Culverhouse Chair in Allergy
and Immunology
Professor of Medicine, Pediatrics & Public Health
Director, Division of Allergy and Immunology
Department of Internal Medicine

Jolan Walter, MD, PhD
Robert A. Good Endowed Chair in Immunology
Associate Professor of Pediatrics and Medicine
Chief, Division of Allergy and Immunology
Department of Pediatrics
