About Dr. Jean Ly, MD:

Since graduating USF Allergy at All Children's in 2013, I've had the great fortune of working at Windom Allergy in Sarasota. One of the most rewarding parts of my workday is helping families navigate through food allergies. I have a particular passion for infant and toddler food oral immunotherapy and stopping food allergies early.

My husband, Tan Ly, is an orthopedic spine surgeon, and he would never admit it, but I'm funnier than he is. Our two kids, Evelyn (7) and Tanner (5) are nicknamed Mischief & Mayhem. We love to read, "camp", and hike the national parks.

Dr. Jean Ly, MD is an integral part of the Internal Medicine and Pediatric Divisions of Allergy and Immunology. She is a valued faculty member and colleague and a pleasure to work with.
