

## April Grand Rounds

University of South Florida College of Medicine  
 Department of Obstetrics and Gynecology  
**Wednesdays – 8:00 AM – 9:00 AM**  
 Tampa General Hospital – MacInnes Auditorium

<p><b><u>April 3, 2019</u></b>  <b>“Critical Care in Obstetrics”</b>  <b>Torre Halscott, MD</b></p>	<p><b>Maternal-Fetal Medicine Fellow,</b>          University of Arizona College of Medicine          Phoenix, AZ  <b>Assistant Professor,</b>          Surgical Critical Care and Obstetrics and Gynecology          Howard University College of Medicine          Washington, DC</p>	<p style="text-align: center;"><b>Objectives</b></p> <ol style="list-style-type: none"> <li>1. Discuss common causes of, and general treatment for maternal critical illness</li> <li>2. Learn some of the “language” Critical Care</li> <li>3. Appreciate the common concerns of our Critical Care colleagues for maternal critical illness</li> <li>4. Gain insight into which Obstetrical patients, and when, may require critical care</li> </ol>
<p><b><u>April 10, 2019</u></b>  <b>“Vaginal Hysterectomy:          The Most Minimally Invasive Hysterectomy”</b>  <b>Jon Shepherd, MD</b></p>	<p><b>Associate Professor</b>          Trinity Health of New England Medical Group Department of OB/GYN          Female Pelvic Medicine &amp; Reconstructive Surgery          Associate Program Director, Obstetrics and Gynecology Residency          Director of Resident Research          Hartford, CT 06105</p>	<ol style="list-style-type: none"> <li>1. Examine the history or vaginal hysterectomy and recent changes in its utilization</li> <li>2. Debunk some of the myths and false perceptions we hold about why we might consider a route other than vaginal hysterectomy</li> <li>3. Identify the key steps of vaginal hysterectomy and to learn specific techniques to simplify completing them.</li> </ol>
<p><b><u>April 17, 2019</u></b>  <b>“Placenta Immune Cell Contribute to Pathogenesis of Preeclampsia by Inducing Inflammation via Leptin Signaling”</b>  <b>Chinedu Nwabuobi, MD</b></p>	<p><b>Maternal Fetal Medicine Fellow</b>          Department of Obstetrics and Gynecology          USF Morsani College of Medicine</p>	<ol style="list-style-type: none"> <li>1. Discuss the role of Leptin in the pathogenesis of preeclampsia</li> <li>2. Discuss the leptin/leptin receptor interaction and augmentation of Hofbauer cell secretion of cytokines and chemokines to induce severe inflammation</li> <li>3. Discuss signaling molecules at the maternal fetal interface in preeclampsia and their role as potential biomarkers and targets to treat preeclampsia</li> </ol>
<p><b><u>April 24, 2019</u></b>  <b>“Patient Safety Series:          Trauma in the Pregnant Woman”</b>  <b>Judette Louis, MD, MPH</b></p>	<p><b>Interim Chair and Associate Professor,</b>          Department of Obstetrics and Gynecology          Morsani College of Medicine  <b>Associate Professor</b>          Department of Community and Family Health,          College of Public Health          University of South Florida</p>	<ol style="list-style-type: none"> <li>1. Discuss the epidemiology, and incidence of trauma in pregnancy</li> <li>2. Identify physiologic &amp; anatomic changes in pregnancy pertinent to trauma care</li> <li>3. Review the resuscitative management and principles of care of the pregnant trauma patient</li> </ol>

**Accreditation:** Physicians: USF Health is accredited by the Accreditation Council for Continuing Medical Education (ACCME) to provide continuing medical education for physicians.  
 USF Health designates this live activity for a maximum of 1 AMA PRA Category 1 Credit™. Physicians should claim only the credit commensurate with the extent of their participation in the activity.

**Nurses:** USF Health is an approved provider of continuing education for nurses through FBN 50-2970. This program has been approved for 1 contact hour.
