## Research Happenings!

Schizophrenia Jail Study – A 15 month open label study comparing oral antipsychotic treatment to paliperidone palmitate injections in delaying arrest recidivism in adults with Schizophrenia. Subjects must have been incarcerated at least twice in the last 24 months with the last release from jail occurring within 45 days prior to screening.

GSK Bipolar Kids Study, Sandra Stock, M.D. (principal investigator) – The USF Department of Psychiatry Silver Child Development Center is participating in a nationwide clinical research study being conducted to evaluate LAMICTAL as an Add-on treatment for Bipolar I Disorder in Children and Adolescents, ages 10-17. For more information, call Colleen Killian, BA at 974-9104; or to make a referral, call 974-1404.

Excellent Study Opportunity!!! Schizophrenia IM Depot Abilify Study, The USF Department of Psychiatry is participating in a nationwide clinical research trial evaluating the efficacy, safety, and tolerability of Aripiprazole IM Depot as Maintenance Treatment in patients with Schizophrenia. For more information, call Colleen Killian, BA at 974-9104; or to make a referral, call 974-1404.
