## Newsletter

*The Department mourns the death of Dr. Archie A. Silver, Distinguished Scholar and Professor Emeritus who founded the Archie and Mary Louise Silver Child Development Center and the Robert A. Silver Chair in Developmental Neurobiology. As Chief of Child and Adolescent Psychiatry, day in and day out, Dr. Silver showed the kind of motivation and leadership all of us in the Department so much admired - we will not forget him. He is survived by his wife Mary Louise and their son, Dr. Frederick Silver. Our sympathies are with them in this loss.*
