Meetings

Tuesday	01/11/11	3:00 p.m.	Dept. of Psychiatry Research Seminar – “The Molecular Genetics of the Psychosis Phenotype” by Pamela DeRosse, Ph.D. in Rooms 1013 A&B at Morsani Center for Advanced Healthcare (videoconferenced to South Tampa Center for Advanced Healthcare Conference Room 5050)
Thursday	01/13/11	8:00 a.m.	Call Center Meeting
			<u>Resident Lectures:</u>
		8:00 a.m.	PGY-2 – “Consultation Liaison” Dr. Brian Keefe PGY-3 – “Long-Term Dynamic Psychotherapy” Dr. Robert Fernandez PGY-4 – Board Review CHILD – “Development Overview” Dr. Sandra Stock
		9:00 a.m.	PGY-1 – “Scholarly Activity Development” Kristen Morda, M.A. PGY-2 – “Supportive Psychiatry” Dr. R. Fernandez PGY-3 and PGY-4 – Evidence Based Psychiatry “Critical Appraisal of the Literature Skills” Dr. Ben Djulbegovic CHILD – “CBT: Foundations” Dr. Eric Storch
		10:00 a.m.	PGY-1 – “Scholarly Activity Development” Kristen Morda, M.A. PGY-3 and PGY-4 – Evidence Based Psychiatry “Critical Appraisal of the Literature Skills” Dr. Ben Djulbegovic CHILD – “CBT: Working with Kids and Teens” Dr. Eric Storch
		11:00 a.m.	Residents Meeting
		11:30 a.m.	PGY-1, PGY-2, PGY-3, PGY-4 – “Benefits Presentation” Muniz and Associates

	12:00 noon	CHILD – Journal Club “Review PP on Disasters” No Grand Rounds
	1:00 p.m.	GERI – “Pain Management in the Elderly” Dr. Jonathan Stewart
Friday	01/14/11	<u>Medical Student Lectures</u>
	8:00 a.m.	“Personality Disorders” Dr. Theresa Larkin
	9:00 a.m.	“Jeopardy” Dr. Glenn Catalano
	12:00 noon	“Multiple Sclerosis” Dr. Stanley Krolczyk
	1:00 p.m.	“Cognitive Behavioral Neurology” Dr. M. Hoffman
	2:00 p.m.	“Coma and Brain Death” Dr. Heber Varela
	3:00 p.m.	“Disorders of Sensation” Dr. Lara Katzin
	4:00 p.m.	“Disorders of Motor System” Dr. Lara Katzin

In The Know

The Child and Adolescent Psychiatry MATCH was announced this week, and we are pleased to report that we filled all of our available slots. We would like to welcome our new Child and Adolescent Psychiatry fellows for the 2011/12 year, Kinshuk Bose, M.D. from USF and Khaja Chisty, M.D. from the University of Tennessee. Also, congratulations to Yasmeen Ali Khan, D.O. who matched with the University of Texas-Dallas Child and Adolescent Program. The Geriatric Psychiatry program is in the process of interviewing applicants, and we are pleased to report that one of the fellow positions was offered and accepted by an excellent Candidate. Please welcome our new Geriatric Fellow for the 2011/12 year, Connie Poetter, M.D. from USF.

Happy Birthday Wishes to Helen Belalcazar/January 10th and Marsha Cohen/January 11th.

The USF Neuromodulation Program cordially invites you to our Neurotherapies Clinic Anniversary on Tuesday, February 15, 2011. From 4:00 – 5:15 p.m. there will be the following special presentations:

- Dr. Gabriel de Erausquin – “Neurostimulation – “Scientific Foundations”
- Dr. Patrick Marsh – “Neurostimulation – Clinical Applications”

From 5:15 – 7:00 p.m. a reception will be held at the South Tampa Center for Advanced Healthcare 5th floor. Please join us to celebrate the one year anniversary of the Neurotherapies Clinic, and RSVP by February 1, 2011 to Ruta Dimaite at rdimaite@health.usf.edu or (813)259-0920. For directions, please click on the following link:

The Carter-Jenkins Center is presenting the following:

- January 13, 2011 from 7:00-9:00 p.m. (in Spanish): Muerte con Dignidad by Dr. Humberto Nagera, Professor Emeritus of Psychiatry at University of Michigan, Director The Carter-Jenkins Center, Psychoanalyst Children, Adolescents y Adultos.

- January 14, 2011 from 7:00-10:00 p.m. Reel to Real presents "Edge of Heaven" (original title: Auf der anderen Seite). The session will be directed by Frances Marton, MSW, Associate Director, The Carter-Jenkins Center.

Mark your calendars for resident graduation on Friday, June 17, 2011. Details to follow.

Research Happenings!

Current Open Studies – Call [813-974-2832](tel:813-974-2832) or [813-974-1404](tel:813-974-1404) for more information on any study or to refer a patient.

Abilify IM Depot Study

ENROLLMENT ENDING SOON

Participants in this study can now continue to receive open-label Aripiprazole IM Depot until it is FDA approved up to a maximum of 8 years. Our site can enroll up to 6 additional subjects in this study through January, 2011. Participants are started on oral Abilify – once tolerability is determined, the participant is switched to Aripiprazole IM Depot. Aripiprazole IM Depot is administered monthly. All study related medications, labs, ECGs and study visits are at no charge to participants throughout the duration of the extension study (remember up to 8 years or until drug is FDA approved). Principal Investigator – Carlos Santana, M.D.

Cognitive Deficits in Schizophrenia

ENROLLMENT ENDING 3/1/11

We are participating in a nationwide clinical research trial evaluating the safety and efficacy of an investigational medication used in the treatment of Cognitive Deficits in Schizophrenia. This is a 12 week 'add-on medication' study for individuals with schizophrenia between the ages of 20-55. To be eligible subjects must have been *diagnosed or treated* for at least 2 years prior to screening and be stable on 1-2 atypical antipsychotic medications. Principal Investigator - Carlos Santana, M.D.

Bipolar I Disorder with Depressive Symptoms

The Department is participating in a nationwide clinical research study evaluating the efficacy and safety of an investigational medication used as adjunctive therapy in patients with major depression associated with Bipolar I Disorder. This is a 15-week outpatient study. Patients must be 18-65 years of age and currently experiencing depressive symptoms. Patients must be on Lithium, Depakote, Lamictal, Abilify, Zyprexa, Risperdal, CONSTA, or Geodon. Assistance in obtaining Lithium and Depakote is available during the course of the study. Principal Investigator – Carlos Santana, M.D.

Schizophrenia 'Jail Recidivism' Study

We are one of 40 sites in the United States participating site for this landmark study looking at arrest recidivism in adults with Schizophrenia. The study is a 15-month open-label study comparing the rate of arrest recidivism and other health outcome measures in patients receiving oral antipsychotic treatment compared to paliperidone palmitate injections. Participants receive antipsychotic medications and study visits at no charge throughout the study. Subjects must have been incarcerated at least twice in the last 24 months with the last release from jail occurring within 60 days prior to screening to be eligible to participate.

Principal Investigator – Brian Keefe, M.D.
