President and Chief Executive Officer

December 8, 2011

Mr. Frank Morsani
Mrs. Carol Morsani
Frank and Carol Morsani Foundation, Inc.

Dear Mr. and Mrs. Morsani:

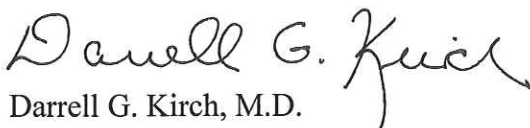

On behalf of the Association of American Medical Colleges and the entire academic medicine community, thank you for your tremendous generosity to the University of South Florida. Your most recent gift not only will create a new state-of-the-art learning environment at USF Health, it also demonstrates your continued commitment to improving the health of individuals in the Tampa Bay region and beyond.

Dr. Steven Klasko is one of our nation's most innovative medical education leaders who has created a dynamic and forward-thinking institution, prepared to educate tomorrow's physicians to best serve their patients and communities. The University of South Florida is tremendously fortunate to benefit from such generous benefactors who understand and support its mission to envision and implement the future of health. The naming of the University of South Florida Health, Morsani College of Medicine is a fitting tribute to a couple who have done so much for the community.

Philanthropists like you are the ones who make academic medical centers the vital heartbeat of transforming health care. This exceptional gift serves as a shining example of the power of philanthropy to positively affect the health care in our nation.

I look forward to seeing what you will accomplish together.

Sincerely,

Darrell G. Kirch, M.D.
