Don’t let technology get in the way of your practice.

Ingenix CareTracker™ PM, EHR, & RCM Services: faster, easier, and more affordable.
You want to...

- Spend more time with patients and less time on paperwork and administrative tasks
- Simplify and minimize the cost of transitioning to electronic health records (EHR)
- Improve financial performance and increase revenue

WHY CONSIDER INGENIX CARETRACKER?

Ingenix CareTracker is a fully integrated, CCHIT®-certified, PM/EHR solution that is guaranteed to help physicians meet meaningful use requirements. It’s built with cloud computing technology so you get instant updates, reliable accessibility, complete global content, and immediate connections to labs/pharmacies/hospitals in your area—all for a lower total cost of ownership. With CareTracker, you simply pay a low monthly subscription fee: no more hassles with architecture management, software, IT fees, or obsolete technology.

With Ingenix CareTracker, you can depend on:

**TIME:** quick and easy implementation and online training means you have more time to focus on patient care

**SIMPPLICITY:** a web-based solution that does not require hardware, is easy to use and easy to connect—so it’s easier for you to get paid

**VALUE:** feature-rich solution available for predictable subscription pricing with minimal upfront commitment and always current content

CareTracker is rooted in feature-rich functionality, a low monthly subscription, and the ease of cloud-based delivery. In other words, the value lies in the lower total cost of ownership.

**YOUR VALUE**
An integrated EHR/PM solution delivered via the cloud

**YOUR PRICE**
As low as $390/physician/month for Ingenix CareTracker PM
As low as $200/physician/month for Ingenix CareTracker EHR
Ingenix CareTracker EHR

Ingenix CareTracker EHR helps you achieve greater efficiency through smoother day-to-day operations, strengthening the patient-physician experience, improving quality, and reducing costs. CareTracker offers attractive economics that facilitate essential improvements within your practice. CareTracker EHR is guaranteed to help physicians meet meaningful use requirements. Due to our recent partnership with Krames, a leading provider of patient education and consumer health resources, we now offer a comprehensive database of patient-friendly education that provides physicians with point-of-care access to important information.

In addition, Ingenix CareTracker EHR was awarded the highest level of Surescripts® certification available, underscoring our commitment to provide a safe, compliant, and efficient electronic prescription solution. CareTracker EHR is a:

- Cost-effective, high functionality system with an affordable pay-as-you-go monthly subscription fee
- Cloud-based system that provides secure, one-click access to patient charts, refill requests, and lab results from any internet-connected computer and is always up-to-date
- Powerful solution that is fully integrated with CareTracker PM and requires no IT staffing, software, or hardware costs

Ingenix CareTracker PM

Ingenix CareTracker PM enables physician practices and community health centers to achieve greater efficiency by streamlining day-to-day operations. With built-in workflow rules, user alerts, and real-time reporting functionality, Ingenix CareTracker PM delivers the flexibility needed to manage administrative issues before they become problems so you get the right reimbursement, right on time. Ingenix CareTracker PM offers:

- Powerful embedded claims editing solution that delivers up-to 97 percent pay-at-first-pass rates
- Claim status technology that automatically checks claims status for an up to 20 percent improvement in reimbursements
- Automatic claims submissions to more than 4,300 insurance plans

Ingenix CareTracker RCM Services

Targeted revenue cycle management for your business needs. Whether you need help submitting clean claims, managing denials, or pursuing unpaid claims, Ingenix CareTracker Services can help you get paid the right amount as quickly as possible. Our account managers are organized to provide personalized service and comprehensive support by knowing your practice inside and out. CareTracker Services can help you improve your practice’s revenue cycle through:

- Best-in-class rules-based technology
- Optimization of front desk processes to eliminate redundancies
- Senior A/R team focused on maximizing your revenue
- Constant reporting of metrics to assess all internal and external performance
- Dedicated account management team

“Ingenix CareTracker has made us far more efficient, reduced our use of paper, and eliminated the costs that we pay for servers and software. With it, we have been able to improve our workflow, dramatically increase our productivity, and significantly reduce costs.”
—Vivian Bigam, Argus Business Office Director

“Ingenix CareTracker gives us more time with patients, provides better medical information, and improves medical care.”
—Scott Hill, Office Manager, Trumbull Medical Practice, LLC

About Ingenix CareTracker

Ingenix CareTracker is a family of cloud-based products and services that simplify administration of physician practices and improve care by enabling physicians to spend more time with patients. Today, more than 5,200 physicians and 10,000 health professionals nationwide use Ingenix CareTracker modules together or in combination with other third-party practice management systems. The CareTracker Suite is comprised of:

INTEREST-FREE FINANCING, NO OUT-OF-POCKET COSTS

Ingenix CareTracker is guaranteed to help meet meaningful use requirements. We believe so strongly in Ingenix CareTracker’s value to physicians that we’ll waive EHR subscription fees until physicians meet meaningful use requirements and start receiving ARRA reimbursements. Call 866.EHR.0845 to learn more.

“Ingenix CareTracker uses cloud-computing technology. No additional hardware or IT support needed—and always current content.”

—Vivian Bigam, Argus Business Office Director
Ingenix HealthTracker
Ingenix HealthTracker unites patients and providers with a secure, online, health care tracking web portal that streamlines information sharing between providers and patients and can be exported for use in an external EHR system. Within HealthTracker, patients can request an appointment or prescription renewal, check messages from physicians, and pay their bills online. Ingenix HealthTracker provides information sharing and exchange between providers and patients by helping physicians:
- Deliver important care information to patients in real-time
- Automatically notify patients regarding their health maintenance and procedure due dates
- Improve patient satisfaction and health care outcomes with clear and timely communication
- Reduce administrative costs, calls to the office, and redundant data entry

Ingenix Referral Network
Referral Network is a secure, web-based provider portal that allows you to build a network of referring providers through a national database. Using CareTracker, providers can invite other providers who share the same patients, regardless of what billing system they are using. Referral Network’s secure messaging provides safe transmission of electronic health records and clinical data. CareTracker providers can also send a Continuity of Care Document (CCD) that may be viewed or exported for use in an external EHR system. Using Ingenix Referral Network gives CareTracker providers:
- Access to a national database of physicians
- Safe and secure methods for sharing patient data
- Centralized area to communicate and receive timely patient data

Ingenix CareTracker for Federal Qualified Health Centers
Ingenix CareTracker for FQHC is fully integrated with the Ingenix CareTracker practice management and EHR system. Ingenix CareTracker’s FQHC functionality was designed exclusively for non-profit Community Health Centers and offers administrative benefits, automated rate adjustments, and flexible configuration—including sliding fee scales. Ingenix CareTracker’s Electronic Household Assessment helps FQHCs front office staff:
- Improve efficiency and remove manual errors by automatically determining your patient’s sliding fee scale eligibility
- View a patient’s sliding fee eligibility, determine their co-pay, and inform the patient of their financial responsibility upon arrival
- Serve your practice’s diverse patient population with the ability to print assessment in multiple languages

Don’t let technology get in the way of your practice.
Ingenix CareTracker™ PM, EHR, & RCM Services:
- faster, easier, and more affordable.

The American Medical Association (AMA) has selected Ingenix CareTracker as the first electronic health record (EHR) system offered through its new online health information solutions platform for physicians.
Don’t let technology get in the way of your practice.
