Institute for Translational Research in Adolescent Behavioral Health

About the Institute
The mission of the Institute is to provide an innovative education program in translational research, implementation science, and evidence-based practice in adolescent behavioral health. The Institute is sponsored by the National Institute on Drug Abuse, Grant 5R25DA031103-04.

Program Highlights
- Academic-community partnerships among USF and Community Collaborating Partners
- Application of an innovative research knowledge base to a service-learning research project
- Coursework (15 credit hours) and a service-learning research project conducted over four semesters
- Interdisciplinary team mentoring approach
- Funding available to Institute Scholars for course credits and related program activities
- Institute Scholars will earn a Graduate Certificate in Translational Research in Adolescent Behavioral Health

Apply to be an Institute Scholar
- Up to 15 graduate level Institute Scholars will be admitted each year.
- Applicants to the Institute are asked to submit a 250-word personal statement, CV or resume, two letters of recommendation, and official transcripts.
- Applications will be reviewed on a rolling basis. Please apply as soon as possible as scholar positions are filled on a first-come first-served basis (assuming competitive application).
- Coursework begins each spring semester.
