**4. Research Support (previous three years):**

#5K30RR022270-03, National Institutes of Health, Clinical Research Curriculum Award (K 30), Co-PI, 10/06-9/10

The aim of this project is to admit terminally degreed professionals (MDs, DDSs, PhDs, DVMs, DPTs, etc., to a graduate degree program (masters and/or doctoral) in Clinical and Translational Science and provide the education to help them develop the skills to build successful research programs in academic health centers.

#6101101800, Summer Medical Biomedical Research Training Support for Medical Students, PI, AHA, 7/03-6/11

The aim of this project is to provide laboratory or clinical research training opportunities to a select group of medical students between their first and second years of medical school in the area of cardiovascular research.

#6414105900, Florida Right From the Start (First Time Motherhood/New Parent Initiative) Evaluation, PI, Healthy Start Coalition of Pinellas, Inc., 1/09-9/10

The aim of this project is to evaluate a public awareness campaign based on social-marketing approaches that concurrently increase awareness and relevance of existing preconception /interconception, prenatal care, and parenting services/programs and addresses the relationship between such services and health/birth outcomes and a healthy first year of life.

#6405103400, Florida Child Health and Healthcare Quality Chartbook: Focus on Childhood Obesity, Co-PI, Florida Blue Foundation, 1/09-12/09

The Aim of this project is to develop a data driven “Chartbook” to update key findings from national data sets that report on the health and healthcare quality for children and adolescents in Florida, provide an in-depth focus on the scope, nature and impact of childhood obesity in Florida, and to showcase promising approaches to addressing the obesity epidemic at all levels in the state; the “Chartbook” is to educate key policy leaders in Florida about the obesity epidemic associated with children and adolescents in the state, and how well the health care system is responding to this important medical and public health issue.
