Scope of Practice for Residents
Obstetrics and Gynecology

The following outlines the scope of practice for all residents, years 1-4, in Obstetrics and Gynecology. All patient contacts (clinics, hospital, operating room, ER, labor and delivery) are with direct faculty supervision (24-7). The sites where care is provided are Tampa General Hospital, (TGH), Genesis Clinic TGH, and Moffitt Complex.

William N. Spellacy, M.D.
Professor and Residency Program Director
JOB DESCRIPTIONS
