RE: AIMS Update

The Department of Pediatrics developed the following incentive based plan. A Departmental Committee lead by Vice Chair Dr. John Sleasman developed the plan which was subsequently discussed and approved by the Department Faculty in a faculty meeting. We have also included an initial example of a dashboard that will be filled out on each faculty member after the first six months the data is available and January of 2007 to update the faculty as to where they are in relation to the incentives.

Sincerely,

A handwritten signature in black ink, appearing to read "Robert M. Nelson, Jr.", written over the word "Sincerely,".

Robert M. Nelson, Jr., M.D., M.S.
Professor and Chairman
Department of Pediatrics
University of South Florida
