Our Cosmetic Providers

Neil Alan Fenske, MD, FACP

Medical Director

Named in 2008 as one of Women's Health Magazine's Top 17 Dermatologists for women in the nation and the only physician in any specialty in the greater Tampa Bay area, Dr. Fenske is Professor and Chairman of the Department of Dermatology & Cutaneous Surgery at USF Health. He is Medical Director of the USF Health Cosmetic and Laser Center, the bay area's all-inclusive skin treatment center staffed by board-certified teaching dermatologists. Dr. Fenske has been widely recognized by his peers in America's Top Doctors, America's Top Cancer Doctors, America's Best Doctors and the Guide to America's Top Physicians. His areas of special interest are skin cancer melanoma, psoriasis and cosmetic dermatology.

About the Cosmetic & Laser Center

At the USF Health Cosmetic & Laser Center we are committed to providing state-of-the-art technology aimed at attaining impressive results, without sacrificing patient safety or comfort. We offer esthetic procedures with experienced providers you can trust. We are the Bay Area's all-inclusive skin center.

The Consultation

The consultation allows us to evaluate your skin through the Visia skin complexion analyzer and customize a treatment plan for your skin's exact needs. During this consultation we will take digital photos, determine key concerns and compose a strategy for achieving results. We will provide you with information on the latest technology and answer questions that you have about your skin. Our skin consultation is a \$75 dollar charge that is refundable back toward a service or product purchase of \$250 or more.

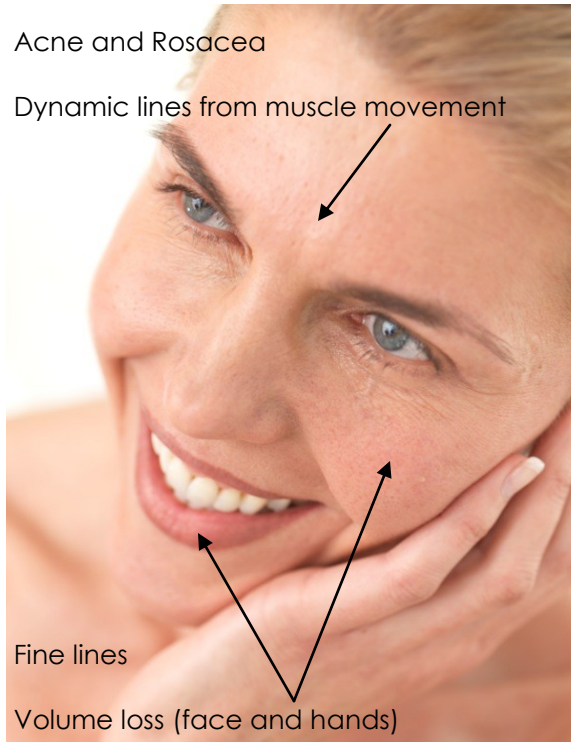

Common Cosmetic Issues

Textural Problems

Ruddy complexion

Acne and Rosacea

Dynamic lines from muscle movement

Deep wrinkling
