CURRICULUM MATERIALS DEVELOPED

- 1) The following curriculum manuals were developed as part of the joint Johns Hopkins University - Northern Arizona University Native American Prevention Project Against AIDS and Substance Abuse (NAPPASA) under the direction of Drs. Rolf, Baldwin and Johnson.
 - Level I NAPPASA Instructor and Youth Manuals (available on CD-ROM) (2003). For middle school youth, this is a 20 session curriculum based on Social Action and Social Cognitive Theories of behavior change and developmental models of cognitive, social and affective functioning among adolescents. Each session provides: (1) Session Objectives; (2) Descriptions of required tasks, activities and materials; (3) Scripts for instructor's presentations and discussion questions; (4) Cross-References to the Student Manual activities and resource rosters; (5) Required session logs and process evaluation forms; and (6) Guidelines for a two day instructor's training workshop.
 - Level II NAPPASA Instructor and Youth Manuals (available on CD-ROM) (2003). This is a high school level curriculum containing 20 sessions of HIV/AOD prevention information. Its theoretical base and structure are similar to Level I curriculum. The content of the sessions present new information and discussions.
- 2) Health Care Provider Training Facilitator's Manual – Project Mainstream (Multi-Agency Initiative on Substance Abuse Training and Education for America). Baldwin, J. A., Johnson, R., Wayment, H., & Gotz, N. Training Health Care Providers to Address Substance among College Students.
