Are you interested in brain health? Do you have 20 minutes once a month? We need your help!

If you are age 55 or older, you can participate in a new research study called: “CogState Brief Battery in Cognitively Normal Older Adults”

Drs. Aryn Harrison and Ross Andel, Principal Investigators, IRB# Pro12918

- One initial appointment lasting ~ 45 minutes
- 12, once-monthly online sessions lasting 15 minutes
- Option of completing sessions at home

For more information, contact Elise Valdés, Study Coordinator, at the University of South Florida:

(813)-974-6655
