About the Cosmetic & Laser Center

At the USF Health Cosmetic & Laser Center we are committed to providing state-of-the-art technology aimed at attaining impressive results, without sacrificing patient safety or comfort. We offer esthetic procedures with experienced providers you can trust. We are the Bay Area's all-inclusive skin center.

The Consultation

The consultation allows us to customize a treatment plan for your skin's needs. During this consultation we will take digital photos, determine key concerns and compose a strategy for achieving results. We will provide you with information on the latest technology and answer questions that you have about your skin.
