**USF Health  
Pediatrics**

Volume 4, Issue 11

December 2008

## Congratulations In Order for Newest Society Members

### Inside this issue:

<i>Faculty News Re-views</i>	2-3
------------------------------	-----

<i>Departmental Up-dates</i>	4
------------------------------	---

<i>Announcements</i>	5
----------------------	---

Dr. Frank Diamond  
Professor, Division  
of Endocrinology  
American Pediatric  
Society

Dr. Dorothy Shulman  
Professor, Division of  
Endocrinology  
American Pediatric  
Society

The American Pediatric Society, founded in 1888, has a long and prestigious history. It's first president was Abraham Jacobi, MD. The Society was founded for the purpose "...to bring together men and women for the advancement of the study of children and their diseases, for the prevention of illness and the promotion of health in childhood, for the promotion of pediatric education and research and to honor those who, by their contribution to pediatrics, have aided in its advancement.". The Society for Pediatric Research was founded in 1931. The Society actively supports the development of future pediatric scientists by sponsoring a student research-training program and recognizes outstanding research achievements in pediatrics through SPR sponsored awards. Congratulations to everyone !

Dr. Terri Ashmeade  
Assistant Professor, Division  
of Neonatology  
Society for Pediatric Research

Dr. Morna Dorsey  
Assistant Professor, Division of  
Allergy/Immunology  
Society for Pediatric Research

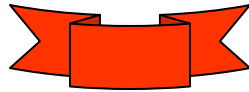

Dr. Rajan Wadhawn  
Assistant Professor,  
Division of Neonat-  
ology  
Society for Pediatric  
Research

### From the Chairman's Desk

I wish each and every one of you and your families a safe and  
joyous holiday !

*Bob Nelson*

"Items of Excellence"

By now everyone has probably seen the email publication of "Items of Excellence". This publication will run every two weeks.

**What:** Items of Excellence (IOE) are summaries of wins and accomplishments that support the vision and strategic goals of the HSC, the College and the department – timely items that we would like everyone to know about. Examples include announcements of recently awarded federal grants, recent recent publication in a major peer-reviewed journal or presentation at a national research conference, top-level appointments and honors, collaborative/team initiatives and accomplishments by departments or colleges, etc. – all leading to national prominence.

**Who Can Submit:** Anyone at the HSC – deans, chairs, faculty, staff and students.

**How:** Please report your IOEs to your department or college under the following five categories. Be concise – just the basic facts needed:

Creative Educational Models (emphasis on national prominence, interdisciplinary collaboration)

Research Really Matters (emphasis on national prominence, interdisciplinary collaboration)

Entrepreneurial Academic Practice (successful clinical practice and community outreach programs/projects, collaborations with community partners-- e.g. TGH, Moffitt, VA, ACH, outpatient sites).

Operational/Financial Innovation (streamlining of clinic operations resulting in greater efficiency and profit – scheduling, patient flow, medical records, billing, etc)

People Excellence – Items that demonstrate the Winning Spirit, Creativity and Accomplishments of the people at HSC
