Dr. Laura Jean Palmer-Moloney is a Senior Research Geographer for the U.S. Army Corps of Engineers, Engineer Research & Development Center (ERDC) in Alexandria, VA and is an Associate Professor in the University of South Florida’s College of Public Health, Department of Environmental and Occupational Health. Moving from her career as an established geography professor, Dr. Palmer-Moloney joined US Government service first as a Visiting Research Scientist with the National Geospatial-Intelligence Agency and then as a federal employee with USACE in 2009. At that time she began her study of the Helmand River watershed. In her role as civilian employee of the Dept of Defense, Dr. Palmer-Moloney served as the principal investigator for the “Civil-Military Operation/Human-Environment Interaction” USACE ERDC work package and was a lead research scientist in the Pentagon’s “Helmand Deep Dive” strategic multi-layered assessment on Afghanistan. From 2011-2012 she deployed to Afghanistan as Senior Advisor on Watershed Management to the Commander of Regional Command (Southwest). As such, she served on the Stability Operations staff, Camp Leatherneck, Helmand Province, AF.
