

**College of Public Health
DPT/MPH COMBINED CURRICULUM
YEAR 5**

FALL 5 15 weeks	SPRING 5 15 weeks	SUMMER 5 10 weeks
Students may need to also attend Fall and/or Spring semesters of Year 5 depending on COPH concentration requirements.	Students may need to also attend Fall and/or Spring semesters of Year 5 depending on COPH concentration requirements.	

The COPH electives for the program will be covered in conjunction with the DPT curriculum. However, the COPH may require certain electives of the students depending on the chosen concentration area.

The COPH special project credit will be earned through the final critical inquiry project for the DPT.

Note: Students may elect to sign up for core courses and the introductory public health course before they are formally accepted into the MPH program. Students can sign up for up to 12 hours (4 core courses) that will transfer into the MPH program once their acceptance takes place. This will decrease their time in the program as they may be able to complete all required concentration courses in Year 4.
