

Pathways to SUCCESS.

our community engagement

Partner with local communities to bring vaccination information and services to adults in Hillsborough and Polk counties

Bridge programs that introduce high schoolers and undergraduates to public health disciplines

Host of Dean's Lecture Series featuring local, national and international practitioners

Home to Students with Diabetes, a national program with 30+ chapters on college campuses

Recipient of \$4.2-million federal grant to help uninsured Floridians navigate health care coverage options

Designer of community-based social marketing approaches to prevent disease and disability

Home to institute focused on translational research in adolescent behavioral health as it relates to substance abuse and co-occurring disorders

Nationally recognized model for service delivery to children, youth and families with HIV

Partner with Reach Up, Inc., to improve racial and ethnic equity in health

Academic home for Girls on the Run, a national, positive youth development program

our global initiatives

Research partnerships and student opportunities in Belize, Thailand, Indonesia, Malaysia, Uganda, Ecuador, Panama and Costa Rica

Public health leadership and disaster response training in the Caribbean

Certificates in global health and Latin American studies, disaster management, and humanitarian assistance

Recognition as a top five Master's International Peace Corps school

Developer of a national risk map and integrated vector control management policy/strategy for Uganda

Engagement in community health dealing with diseases of public health importance in Asia, Africa and the Caribbean

Satellite office in Panama with a focus on education, training and research

Collaboration with underserved communities on air pollution resolution

Recognized leader in online education, offering six master's degrees, more than ten graduate certificates, DrPH, and upper-level BSPH coursework online

our workforce leadership

MPH in public health practice designed for experienced health professionals

Innovative DrPH designed for working professionals

Florida's first bachelor's in public health housed within an accredited College of Public Health

Federally funded training programs in a variety of disciplines

Students recipients of national certification in public health (CPH)

Part of USF Health Interprofessional Education efforts to educate students across disciplines

Annual presenter of Florida Outstanding Woman in Public Health award

Host of Social Marketing in Public Health conference

Academic home of Dr. Adewale Troutman, former president of the American Public Health Association

Three consecutive Chapter of the Year recognitions for Delta Omega chapter

Occupational safety training in Florida and the Caribbean

our ongoing discoveries

Well-rounded research portfolio including federal, state, private and foundation grants and contracts

More than 285 publications annually

New Bill and Melinda Gates Foundation grants to the Global Health Infectious Disease Research Team

Undergraduate students engaged in research opportunities

Partner with H. Lee Moffitt Cancer & Research Institute on health equity in our communities

Federal fellowship awards, internal graduate school awards, research scholarships, and awards for research and practice for public health students

National research leader on the role of fathers in pregnancy outcomes

A global resource with 10 centers and institutes addressing areas of public health importance such as maternal and child health, occupational health, violence prevention, behavioral health and biological threats

Community-based research on safety and quality of care in hospitals, health care settings and home-based care environments

SUCCESS takes many forms.

your education. your options.

Established in 1984 as the first school of public health in Florida, the USF College of Public Health is a recognized leader in community health, online education, maternal and child health, social marketing, disaster management and infectious disease research. The college offers more than 20 concentrations that lead to MHA, MPH, MSPH, DrPH and PhD degrees, as well as a BSPH, dual degrees, graduate certificates and online programs.
