Schedules and Billing

GME as a Business

**Number of FTEs affiliates get reimbursed for is set unless considered a new hospital

**Have to know your FTE per affiliate to create schedule
**Affiliates may not fund time over FTE

**Have to make sure schedules are setup to be within FTE allotment and the weekend days are billed to an affiliate

**New Rotation Forms have to be filled out and sent to GME and affiliate for approval

**PDs (and PC and chair) attest to accuracy; errors will be billed to the dept

**Funding set up to bill on a 7 day a week schedule—note for rotations that have residents assigned to more than 1 hospital

Affiliate Reimbursement Through Medicare: Direct (DGME) and Indirect (IME) Funds

- Direct GME Payments (DGME or DME)
 - Pays Medicare's share of residency education costs
 - Per Resident Amount (PRA)
 - PRA for fellows is 50% of residents
 - Based on each hospital's 1984 cost estimate
 - FTE Cap – Based on 1996 FTE count

What Are DGME Payments Intended to Cover?

For costs directly related to educating residents:

- Residents' stipends/fringe benefits
- Faculty Salaries/fringe benefits
- Allocated overhead costs
- Residents must be in ACGME-approved program or pre-req. for ABMS certification
- Residents/Fellows cannot bill

Indirect Medical Education (IME)

- Compensates teaching hospitals for higher inpatient operating costs due to:
 - Unmeasured patient complexity not captured by the Diagnosis Related Group (DRG) system
 - Other operating costs associated with being a teaching hospital (lower productivity, standby capacity, etc.)
- Percentage add-on payment to basic Medicare per case (DRG) payment
