

# MCAT<sup>®</sup> Success Skills

To get into medical school you'll need a great MCAT score. GMS 6000 Medical Sciences Success Skills is an optional elective designed to help prepare students for the MCAT exam. USF Morsani College of Medicine has partnered with The Princeton Review, a leader in test preparation, to provide students with comprehensive MCAT prep led by a team of subject-matter experts.

Students will benefit from extensive in class practice, exclusive learning technology designed to help students learn faster, retain more, and reach a deeper level of MCAT mastery.
