

Charity Lane appointed as Head of Operations of the Lincoln Endowed Chair Research Program

October 1, 2016

Charity L. Lane, MS, MA, CPT, FNS was recently appointed as Head of Operations of the research program of the Lincoln Endowed Chair in Biomechanical & Chiropractic Research of the School of Physical Therapy & Rehabilitation Sciences, Morsani College of Medicine, University of South Florida. Charity holds a Master of Science degree in Exercise and Nutrition Science from the University of Tampa, and a Master of Arts degree Human Relations from the University of Oklahoma. She is also a Certified Personal Trainer and Fitness Nutrition Specialist.

In her leadership role for the Lincoln Chair's research program, Charity brings a new dimension and unparalleled experience in areas targeted for program growth, such as wellness and fitness in high-risk populations. She is founder and CEO of an online and in-person training company providing a whole person wellness approach, and is an IFBB Pro. She has over 10 years' experience in the fitness industry working with professional athletes, fitness competitors, and the general population, and is actively engaged in wellness research and the fitness industry at the local and national levels. She also serves as Project Leader for the FEMA-funded research grant titled, Worksite exercise interventions for low back injury prevention in firefighters (EMW-2013-FP-00723).

Support for the Head of Operations was made possible through a generous unrestricted gift to USF Foundation from the Lincoln College Education and Research Fund (LCERF) and the Florida Chiropractic Foundation for Education and Research (FCF). LCERF and FCF are long-term supports of the Lincoln Endowed Chair in Biomechanical & Chiropractic Research, School of Physical Therapy & Rehabilitation Sciences, Morsani College of Medicine, University of South Florida.
