

ACCESS LARC MEASUREMENT GRID

These measures will be calculated and reported to participating hospitals in a monthly quality improvement data report so that facilities can track their progress. These types of measures will vary between the Pre-Implementation and Implementation Phases **and are subject to changes.**

Notes:

- Goals for each of these measures are to be decided on by the collaborative of participating hospitals.
- Institution and aggregate data are submitted electronically into the FPQC data portal.
- Hospitals will initially report on pre-implementation measures only. Once Structural Measures 1-5 are in place, the hospital will enter the implementation phase and report on those measures only.

Pre-Implementation Measures Systems Development/Planning

#	Process Measures	Description	Requires
1	Provider education	<i>Numerator:</i> At the end of this month, what cumulative number of OB physicians and midwives has completed an education program on the importance of offering immediate postpartum LARC placement as an option? <i>Denominator:</i> Total number of delivering physicians and midwives.	Hospital to report monthly Reported as cumulative % of providers educated over initiative period
2	Nursing education	<i>Numerator:</i> At the end of this month, what cumulative number of nursing staff has completed an education program on the importance of offering immediate postpartum LARC placement as an option? <i>Denominator:</i> Total number of OB nurses.	Hospital to report monthly Reported as cumulative % of staff educated over initiative period
#	Structural Measures	Description	Requires
1	Establishment of a multidisciplinary and multidepartment Access LARC planning team	Is an Access LARC Initiative team in place that includes: <ul style="list-style-type: none"> ▪ Administration ▪ MCO Liaison ▪ Pharmacy ▪ Billing ▪ Nursing ▪ Lactation consultant ▪ OB provider 	Submitted by hospital monthly during pre-implementation phase until full team is established. If suggested member of planning team not included, please specify reason.
2	Availability of LARCs for immediate postpartum placement	Have devices been added to the hospital formulary? IUD/Implant/Both/None	Submitted by hospital monthly until devices are on formulary

3	Availability of LARCs for immediate postpartum placement	Are LARC devices and ancillary equipment available at all delivery sites and/or on the postpartum unit? IUD/Implant/Both/None	Hospital to report monthly
4	Unit Policy and Procedure	Have policies, procedures, guidelines been modified or created to support immediate postpartum placement of LARCs? Options: IUD/Implant/Both/None <ul style="list-style-type: none"> ▪ L & D ▪ Mother/Baby unit ▪ OB OR ▪ pharmacy ▪ billing 	Hospital to report monthly
5	Billing codes established and tested	Have billing codes for IUDs and implants been established and tested? IUD/Implant/Both/None	Hospital to report monthly
6	IT Revisions:	Have IT revisions been completed to assure adequate data collection, tracking and documentation? Options: IUD/Implant/Both/None <ul style="list-style-type: none"> ▪ EHR for consent ▪ EHR for contraceptive choice counseling ▪ order sets ▪ pharmacy system ▪ billing system ▪ tracking tools 	Hospital to report monthly

Implementation Measures

Service Provision

#	Structural Measures	Description	Requires
1	Availability of LARCs for immediate postpartum placement	Are IUDs and ancillary equipment available at all delivery sites?	Submitted by hospital monthly
2	Availability of LARCs for immediate postpartum placement	Are implants and ancillary equipment available on the postpartum unit?	Submitted by hospital monthly
3	Patient Education	a. Have partnerships or educational efforts been established with community prenatal care providers to promote postpartum contraceptive choice counseling for all appropriate women? b. Have policies been developed to assure contraceptive choice counseling is provided for all appropriate delivering women - Prior to delivery? - Prior to discharge?	Submitted by hospital monthly
4	IT Revisions:	Have IT revisions been completed to assure adequate data collection, tracking and documentation? Options: IUD/Implant/Both/None <ul style="list-style-type: none"> ▪ EHR for consent ▪ EHR for contraceptive choice counseling ▪ order sets ▪ tracking tools 	Submitted by hospital monthly
#	Process Measures	Description	Requires
1	Provider Insertion Education/Credentialing	<i>Numerator:</i> Cumulative number of physicians and midwives trained in immediate postpartum LARC insertion <i>Denominator:</i> Total number of delivering physicians and midwives.	Hospital to report monthly Reported as cumulative % of staff educated over initiative period by IUD, Implant and Both
2	Provider education on counseling and consent process	<i>Numerator:</i> Cumulative number of delivering physicians and midwives trained in updated LARC counseling and consent process <i>Denominator:</i> Total number of delivering physicians and midwives.	Hospital to report monthly Reported as cumulative % of providers educated over initiative period by IUD, Implant and Both

3	Nursing education on counseling and consent process	<i>Numerator:</i> Cumulative number of OB nurses trained in updated LARC counseling and consent process <i>Denominator:</i> Total number of OB nurses.	Hospital to report monthly Reported as cumulative % of staff educated over initiative period by IUD, Implant and Both
#	Outcome measures	Description	Requires
1	Number of LARCs placed	Number of IUDs and implants places during quarter by type: <ul style="list-style-type: none"> • IUDs • Implants 	Submitted by hospital monthly.
2	Percent of participating hospitals actively providing postpartum LARC insertion	<i>Numerator:</i> Number of participating hospitals actively providing postpartum LARCs either IUD or Implant. <i>Denominator:</i> Total number of participating hospitals	Calculated by FPQC based on response to Outcome Measure #1.
