

Florida Perinatal Quality Collaborative

Partnering to Improve Health Care Quality
for Mothers and Babies

GRAND ROUNDS

“ELIMINATING NON-MEDICALLY INDICATED DELIVERIES <39 WEEKS GESTATIONAL AGE”

The Florida Perinatal Quality Collaborative has six obstetricians available to visit your hospital for Grand Rounds presentations, OB department meetings or other meetings with clinicians to discuss your EED project and to encourage efforts around eliminating elective deliveries before 39 weeks. Topics they can cover include: how to make the justification for eliminating early term elective deliveries, how to mobilize a quality improvement team in your hospital and how to gain the buy-in of your obstetrics staff.
