

# Florida Perinatal Quality Collaborative

Partnering to Improve Health Care Quality  
for Mothers and Babies

## GOLDEN HOUR January 2015 Newsletter

### PROJECT ANNOUNCEMENTS

- Thank you for participating in this project and helping it to be successful. We are busy analyzing data and will share the compiled report with sites in the Spring.
- Mandatory data entry is completed. For those sites who joined later or who are interested in continuing to submit data, the database will be open until 4/15/15. Sites are welcome to submit sustainability data using the abbreviated data collection sheet into a new database. Sustainability data will be collected through 12/31/15 and data reports will be generated quarterly.
- We will be reaching out to members from each site in the coming months to conduct brief interviews on things that went well and things that could have been done better. This information will help us to better design the next project and to better support participating sites.
- FPQC is formatting the Golden Hour toolkit and materials to be freely distributed to sites. We hope to have this available by March 2015.
- FPQC's Infant Health subcommittee is developing a project around the topic of breast milk. We will provide you more details as the project evolves.

### CURRENT ACTION ITEMS FOR HOSPITAL TEAMS

- ✓ Determine which sustainability measures your site is interested in collecting and revise the sustainability data collection sheet. FPQC will be able to provide a report only on the measures listed on the attached sustainability data collection sheet.
- ✓ The deadline for the first sustainability report is 4/15/15. Remember to use the new database link.
- ✓ Please send any project documents (e.g., checklists, guidelines, data collection sheets, tips sheets, etc.) that your site is willing to share to [mbalakri@health.usf.edu](mailto:mbalakri@health.usf.edu)

### UPCOMING EVENTS

- **Florida Perinatal Quality Collaborative Annual Conference:** April 23-24, 2015 in Tampa, FL
