Improving Maternal and  
Pediatric Access, Care and  
Treatment for Behavioral Health

## About the Florida Perinatal Behavioral Health Screening & Treatment Program

**OUR GOAL:** Improving the identification and treatment of pregnant and postpartum women who experience mental health and substance use disorders

The Florida BH IMPACT Program is an innovative initiative by the Florida Department of Health (DOH), the Florida State University (FSU) College of Medicine and the Florida Maternal Mental Health Collaborative (FLMMHC).

The program aims to promote maternal and child health by building the capacity of health care providers to address these critical issues through professional development, expert consultation and support, and dissemination of best practices. The program also supports expanded screening for: depression, anxiety, and substance use; and access to needed services for prenatal, pregnant, and postpartum women.

---

**FREE psychiatric consultations, community referrals, and on-demand responses to mental health questions for prenatal care providers**

---

**PSYCHIATRIC CONSULTATION LINE:** 1.833.951.0296
