Access LARC Initiative

Tracking Your Initiative Progress

Collaborative Webinar

Partnering to Improve Health Care Quality
for Mothers and Babies

Welcome!

- **Please enter your Audio PIN on your phone or we will be unable to un-mute you for discussion**

- If you have a question, please enter it in the Question box or Raise your hand to be unmuted

- This webinar is being recorded

- Please provide feedback on our post-webinar survey

Partnering to Improve Health Care Quality for Mothers and Babies

Agenda
12/13/17

- Welcome

- Access LARC Announcements

- Access LARC: Pre-implementation Overview

- Access LARC Data Reporting

- Access LARC: Implementation phase

- Q&A

Partnering to Improve Health Care Quality for Mothers and Babies

Project Announcements

- Access LARC contact list sent to MCOs who have requested it

- MCO contact list sent to Access LARC lead contacts

- Developing list of IUD/implant manufacturer contacts for Access LARC participants

South Carolina Data

ROI Medicaid IPI Data for Unintended Pregnancies

- There were 984 patients with a LARC inserted in FY2014

- Over a 21-month period after FY2014, those patients had a pregnancy rate 5.65 percent lower, which resulted in 52 avoided pregnancies

- A conservative estimate of maternal delivery cost savings, between 1/2012 and 5/2015, is $1,742,391

Upcoming Webinar Topics

- Managed Care/Hospital Collaboration
- Launching/Recruiting
- Pharmacy Issues
- Billing
- EHR Modifications

Partnering to Improve Health Care Quality
for Mothers and Babies

Access LARC
Pre-Implementation Phase Overview

Partnering to Improve Health Care Quality
for Mothers and Babies

Pre-Implementation Phase

"Pre-Implementation Phase focuses on creating and modifying hospital systems to enable acquisition and availability of and reimbursement of immediate postpartum LARC placement."

Process & Structural Measures are meant to guide, measure & prepare your hospital for implementation

Partnering to Improve Health Care Quality for Mothers and Babies

# Project Lead Role

◐ **The Project Lead** will need to:

- Organize and encourage collaboration across departments

- Report monthly data by the 7th of the following month

- Discuss hospital score card and the initiative-wide report with team members

- Participate in the Access LARC webinars

FPQC role

🤱 **FPQC** will provide:

- Monthly hospital score card and initiative-wide report

- Access LARC QI materials and tools

- Consultation & assistance by phone or e-mail, as requested

- Periodic Webinars

Access LARC Data Reporting

Partnering to Improve Health Care Quality
for Mothers and Babies
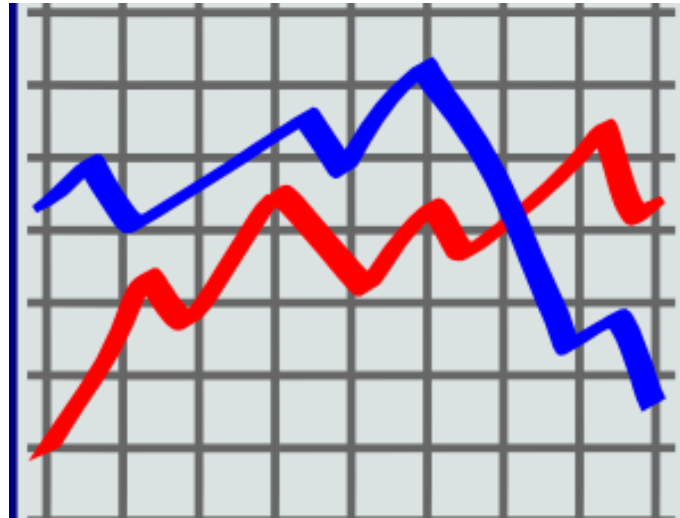

"WHAT GETS MEASURED GETS MANAGED"

Monthly Data Submission

Hospital Report:

- Simple monthly reporting

- Enter monthly data by the 7th of the following month

- Report until pre-implementation stage is complete

- Hospital Lead will receive a **hyperlink** from FPQC to access a survey and submit data

Data Collection Form

🤱 Includes all the questions to be reported monthly (PDF format)
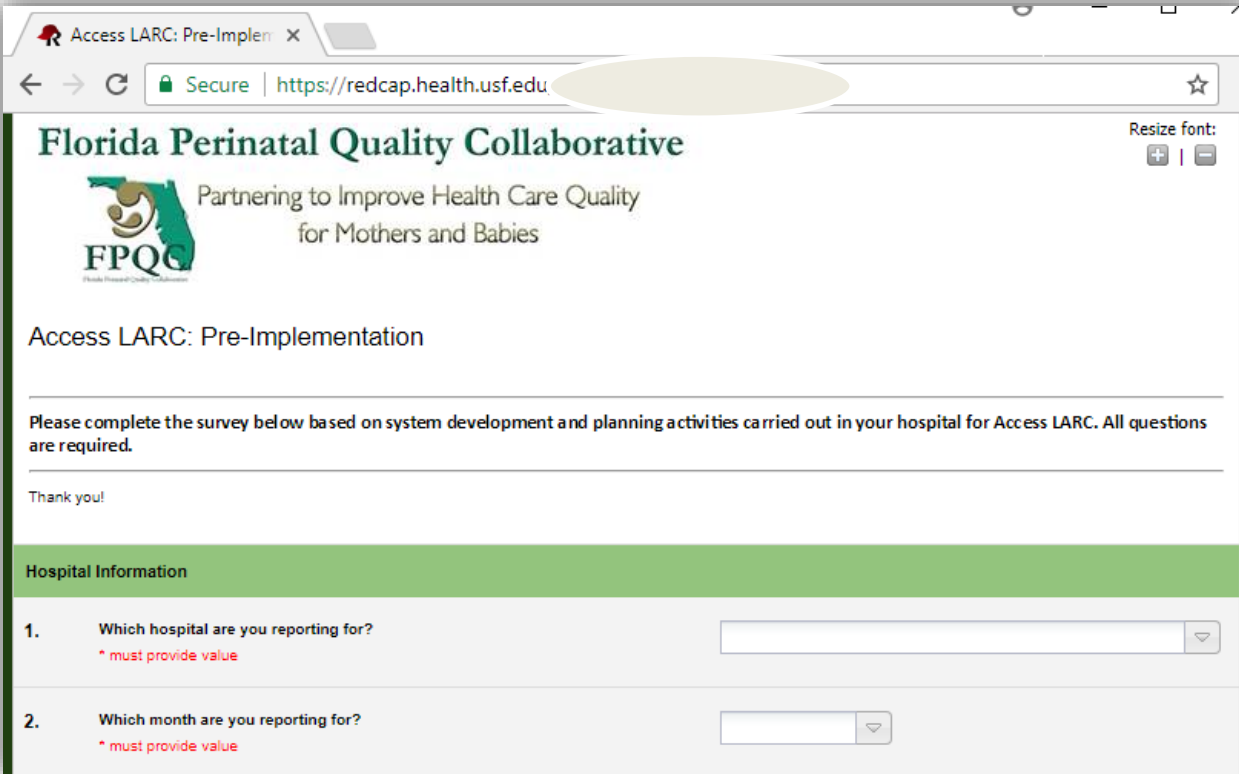

🤱 Helps guide monthly activities

ACCESS LARC: Pre-Implementation Phase
Monthly Data Collection Form

Process Measures

Cumulative percentage of **OB physicians and midwives** that have completed an education program on the importance of offering immediate postpartum LARC placement since the initiative started	%_____
Cumulative percentage of **nurses** that have completed an education program on the importance of offering immediate postpartum LARC placement since the initiative started	%_____

Structural Measures

Who is an active part of the Access LARC initiative team in your hospital this month? Check all that apply	☐ Administration ☐ Lactation consultant ☐ MCO Liaison ☐ OB provider ☐ Pharmacy ☐ All of the above ☐ Billing ☐ Other *(specify)* _____ ☐ Nursing
Select the LARC devices that have been added to the hospital formulary	○ IUD ○ Implant ○ Both ○ None
Select the LARC devices and ancillary equipment available at all delivery sites and/or on the postpartum unit	○ IUD ○ Implant ○ Both ○ None
Select the LARC devices for which policies, procedures, guidelines have been modified or created to support immediate postpartum placement	○ IUD ○ Implant ○ Both ○ None
Select the departments that have modified or created policies, procedures, guidelines to support immediate postpartum placement of **IUDs**	☐ L & D ☐ Billing ☐ Mother/Baby unit ☐ All of the above ☐ OB OR ☐ None of the above ☐ Pharmacy
Select the departments that have modified or created policies, procedures, guidelines to support immediate postpartum placement of **Implants**	☐ L & D ☐ Billing ☐ Mother/Baby unit ☐ All of the above ☐ OB OR ☐ None of the above ☐ Pharmacy
Select the LARC devices for which billing codes have been established and tested	○ IUD ○ Implant ○ Both ○ None
Select the devices for which IT revisions have been completed to assure adequate data collection, tracking and documentation	○ IUD ○ Implant ○ Both ○ None
Select the IT revisions that have been completed to assure adequate data collection, tracking and documentation for **IUDs**	☐ EHR for consent ☐ Billing system ☐ EHR for contraceptive choice counseling ☐ Tracking tools ☐ Order sets ☐ All of the above ☐ Pharmacy system ☐ None of the above
Select the IT revisions that have been completed to assure adequate data collection, tracking and documentation for **Implants**	☐ EHR for consent ☐ Billing system ☐ EHR for contraceptive choice counseling ☐ Tracking tools ☐ Order sets ☐ All of the above ☐ Pharmacy system ☐ None of the above

Data Entry - Survey

[Hyperlink](#) will be sent to hospital lead

Monthly Data Reports

Hospitals Receive:

- Nice-looking one-page hospital score card

- Access LARC Initiative-wide report for comparison

- Received both reports no later than the 15th of the following month

  - For example: January data should be entered by February 7th and the reports should be received by February 15th

Partnering to Improve Health Care Quality for Mothers and Babies

Hospital Score Card vs Initiative-Wide Report
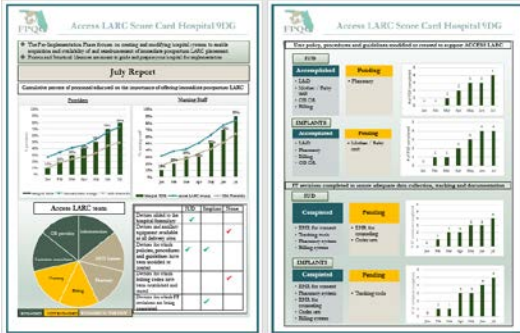

Score Card

- Hospital focus
- Current status
- Monitor progress
- Share with QI team, departments & leaders

Initiative-Wide Report

- Initiative-wide focus
- Monitor progress
- Comparative status
- Share with QI team & selectively

Legend:
| ENGAGED | NOT ENGAGED | ENGAGED IN THE PAST |
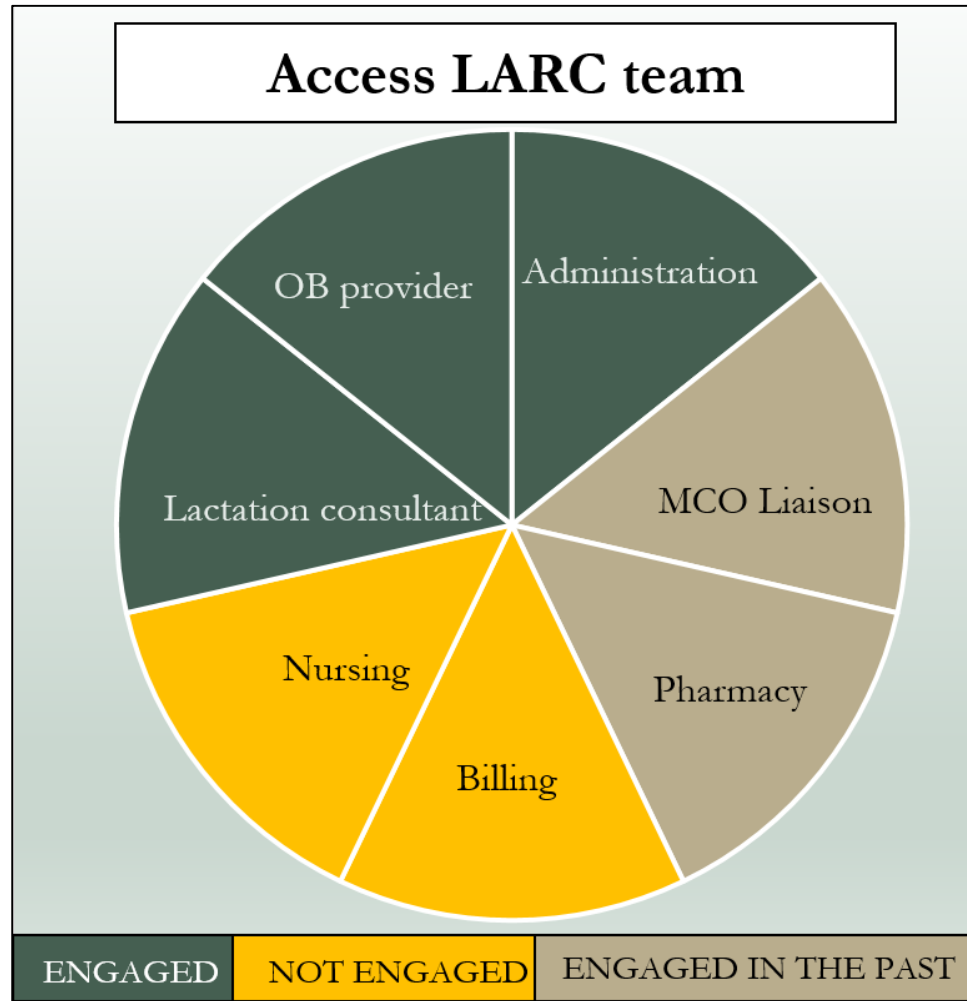

Initiative-Wide Report

Percent of multidisciplinary and multidepartment teams engaged in Access LARC

Partnering to Improve Health Care Quality for Mothers and Babies
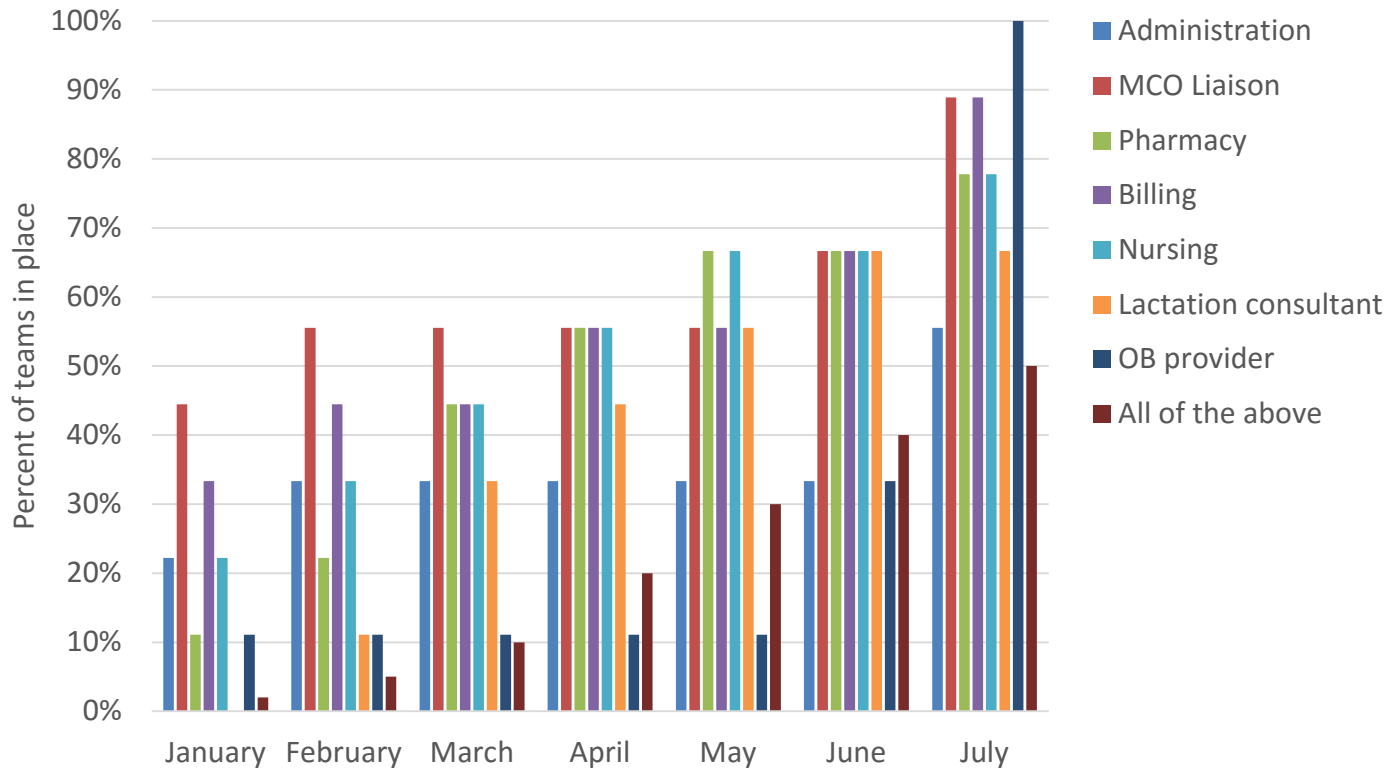

Submission

7.	Select the LARC devices that have been added to the hospital formulary ** must provide value*	○ IUD ○ Implant ○ Both ○ None
8.	Select the LARC devices and ancillary equipment available at all delivery sites and/or on the postpartum unit ** must provide value*	○ IUD ○ Implant ○ Both ○ None
9.	Select the LARC devices for which policies, procedures, guidelines have been modified or created to support immediate postpartum placement ** must provide value*	○ IUD ○ Implant ○ Both ○ None
10.	Select the LARC devices for which billing codes have been established and tested ** must provide value*	○ IUD ○ Implant ○ Both ○ None

Hospital Score Card

	IUD	Implant	None
Devices added to the **hospital formulary**	✓		
Devices and ancillary equipment **available at all delivery sites**			✓
Devices for which **policies, procedures and guidelines** have been modified or created	✓	✓	
Devices for which **billing codes** have been established and tested			✓
Devices for which **IT revisions** are being completed		✓	

Initiative-Wide Report

EXAMPLE: Percent of hospitals that have added LARC devices to the hospital formulary

Partnering to Improve Health Care Quality for Mothers and Babies

Submission

9.	**Select the LARC devices for which policies, procedures, guidelines have been modified or created to support immediate postpartum placement** * must provide value	○ IUD ○ Implant ◉ Both ○ None
9.1.	**Select the departments that have modified or created policies, procedures, guidelines to support immediate postpartum placement of IUDs** * must provide value	☐ L & D ☐ Mother/Baby unit ☐ OB OR ☐ Pharmacy ☐ Billing ☐ All of the above
9.2.	**Select the departments that have modified or created policies, procedures, guidelines to support immediate postpartum placement of Implants** * must provide value	☐ L & D ☐ Mother/Baby unit ☐ OB OR ☐ Pharmacy ☐ Billing ☐ All of the above

Hospital Score Card

Unit policy, procedures and guidelines modified or created to support ACCESS LARC

IUD

Accomplished	Pending
• L&D • Mother / Baby unit • OB OR • Billing	• Pharmacy
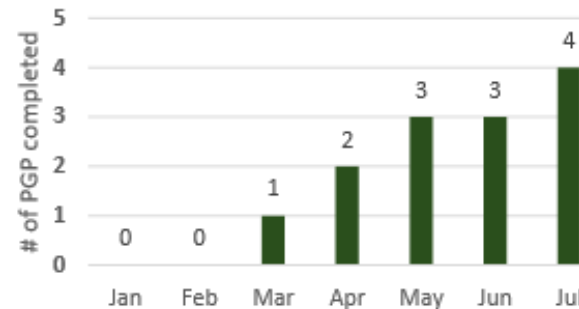

IMPLANTS

| Accomplished	Pending
• L&D • Pharmacy • Billing • OB OR	• Mother / Baby unit
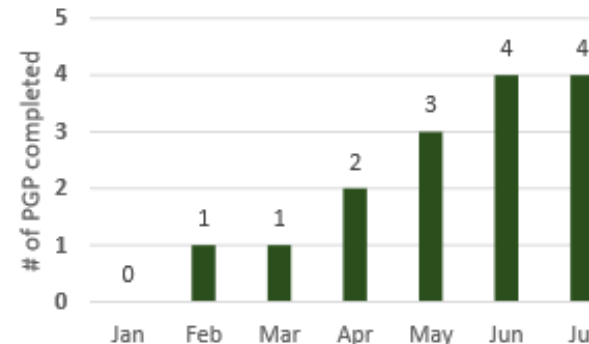

Initiative-Wide Report

Percent of hospital units that modified or created policies, procedures, guidelines to support (IUDs or Implants)

Partnering to Improve Health Care Quality for Mothers and Babies

Submission

11.	**Select the devices for which IT revisions have been completed to assure adequate data collection, tracking and documentation** * must provide value	○ IUD ○ Implant ● Both ○ None
11.1.	**Select the IT revisions that have been completed to assure adequate data collection, tracking and documentation for IUDs** * must provide value	☐ EHR for consent ☐ EHR for contraceptive choice counseling ☐ Order sets ☐ Pharmacy system ☐ Billing system ☐ Tracking tools ☐ All of the above
11.2.	**Select the IT revisions that have been completed to assure adequate data collection, tracking and documentation for Implants** * must provide value	☐ EHR for consent ☐ EHR for contraceptive choice counseling ☐ Order sets ☐ Pharmacy system ☐ Billing system ☐ Tracking tools ☐ All of the above

Hospital Score Card
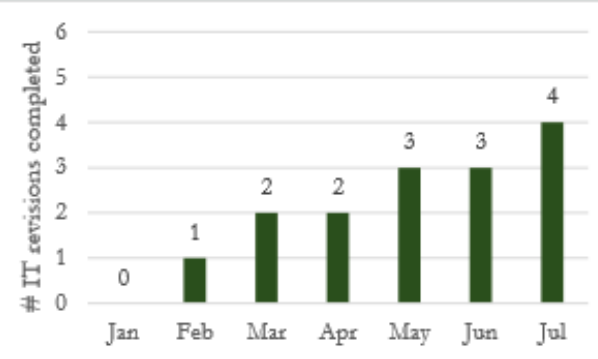

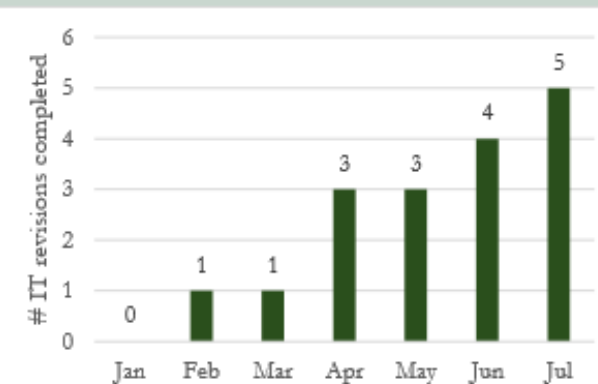

Initiative-Wide Report

Percent of hospital IT system components that have been revised (IUDs or Implants)

Partnering to Improve Health Care Quality
for Mothers and Babies

Implementation Phase

Partnering to Improve Health Care Quality
for Mothers and Babies
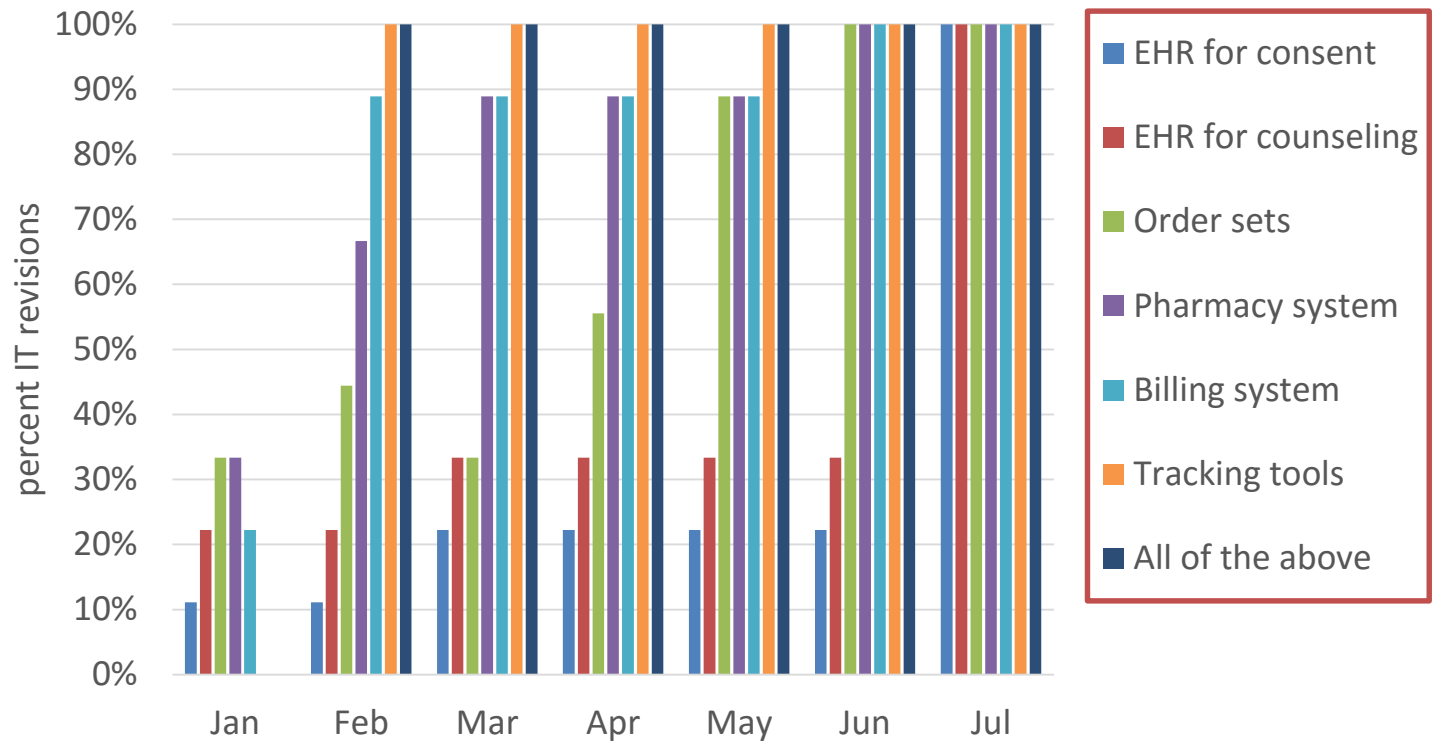

Implementation Phase

- Focuses on the delivery of this new service
- Transition to Implementation Phase once:
  - LARC devices are in the hospital formulary
  - Billing codes have been established and tested for LARC devices
  - LARC devices and ancillary equipment are available at delivery sites and/or postpartum unit

Implementation Phase Reports

- Ready for submission when your hospital is ready

- Different hospital and initiative reports

- Monthly submission through a different data portal

  - Structural measures—one time changes

  - Process measures—patient and provider education

  - Outcome measures—percent of participating hospitals providing immediate postpartum LARC and numbers of LARCs inserted

Important Dates

Deliverable	Due Date
1. Data Entry	7th of every month
2. Monthly reports from FPQC	15th of every month
