

## Tell Us About Your Birthing Experience

The survey from the Florida Perinatal Quality Collaborative allows you to share feedback on your labor, delivery and postpartum care. Our goal is to provide respectful care for all patients. We need your feedback to ensure we provide the care you need. We are committed to providing you with safe and considerate care.

Scan the QR code to complete the survey.

- ▶ Respectful care ensures that patients receive patient-centered care, feel respected and listened to, and that all patients' needs and preferences are valued and met. Survey responses will remain private. We will not collect your name or share your answers with your health care provider or staff.
- ▶ The survey should take about 10 minutes to complete. Completing the survey is optional and will not impact the care and services to you and your baby.
- ▶ Please complete the survey before discharge. Let your nurse know if you have any issues completing it.

Florida Perinatal  
Quality Collaborative

**Supporting respectful care for all patients:** The FPQC works with patients, physicians, midwives, nurses, hospitals and community groups across Florida to reduce maternal disparities and improve maternal and infant outcomes by ensuring all patients receive safe, high-quality, compassionate and respectful care.

# Our Patients Are Important

We want to improve, and you can help.

After discharge, you may receive a survey by phone, text or email asking you about your stay.

Please complete the survey. We value your feedback and will use it to make improvements.
