

# PACC Sustainability Phase Engagement and Reporting

---

# PACC engagement

PACC active phase ends on June 30<sup>th</sup>, 2024

PACC sustainability **starts on July 2024**

- **No monthly coaching calls:** Instead, FPQC will host **meetings** every 4-6 months as needed
- **No full monthly data reports:** Instead, you will receive a simplified quarterly report
- **Next data submission due date:** October 15th

# PACC sustainability – Reporting:

- ✓ You will report fewer patients during sustainability- only abstract 21 discharges per quarter (7 per month)
  - You may abstract and submit your data monthly or quarterly.
  - Sampling is similar to our current method. See details here:

## SAMPLING

- **If your hospital has 40 births per month or more:** report 7 systematically selected discharged deliveries per month, for a total of 21 deliveries per quarter

Selection process: Start by dividing the total number of delivery discharges that occurred at your facility in a given month by 7. Then select every nth chart where n is the result of that division. **e.g.** Your hospital had 105 discharged deliveries in June. Divide 105 by 7. **15** is your nth for June. Report data on every 15th chart.

- **If your hospital has less than 40 births per month:** report the first 7 delivery charts per month.

# PACC Sustainability – reporting schedule

## Data reporting due dates:

- Q3-24: 10/15/24
- Q4-24: 01/15/25
- Q1-25: 04/15/25
- Q2-25: 07/15/25

## Annual aggregate check-in:

- July 15th, 2026 (July 2025-2026)
- July 15th, 2027 (July 2027-2028)
