

Magdy P Milad, MD

Chief, Division of Minimally Invasive Gynecologic Surgery
Albert B. Gerbie, MD, Professor of Obstetrics and Gynecology
Professor of Obstetrics and Gynecology
Northwestern University Feinberg School of Medicine

Dr. Magdy Milad is the Albert B. Gerbie Professor and Chief of Gynecology and Gynecologic Surgery at Northwestern Memorial Hospital in Chicago and the Vice-Chair of Education in the Department of Obstetrics and Gynecology at Northwestern Medicine.

Dr. Milad completed his undergraduate degree at the University of Michigan and matriculated to Wayne State University School of Medicine. He finished his residency at William Beaumont Hospital in Royal Oak, Michigan and went on to do a fellowship in Reproductive Endocrinology and Infertility at the Mayo Clinic in Rochester, Minnesota. In 1997, he returned to school while working full-time to obtain a Masters in Academic Medicine at the University of Wisconsin in Madison.

Dr. Milad joined the Northwestern University faculty in 1993 and quickly established a niche in minimally invasive procedures. For over 20 years, he has remained a consummate advocate for minimally invasive surgery, training and education, having served as the residency director at Northwestern University for 13 years, mentoring over 250 residents and fellows in advanced endoscopic techniques and serving as either course director or faculty member for approximately 100 training courses including the AAGL resident courses, APGO hysteroscopy, electrosurgery and surgical scholars courses. Bringing his vast surgical, educational and administrative experiences across organizations, he is well positioned and committed to further developing and refining minimally invasive gynecologic surgery at Northwestern Medicine.

Resident Scholarly Activity 2016-2017

Entidhar Al Sawah, MD

AAGL Congress of Minimally Invasive Gynecology
The Recent Trends Towards Minimally Invasive Surgery for Hysterectomy Performed for Uterine Cancer & Its Association with Body Mass Index and Perioperative Morbidity
ACOG Annual Clinical and Scientific Meeting
Association between Perioperative Outcomes & BMI among patients who underwent TLH for Uterine Cancer
APGO/CREOG Annual Meeting
Circumcision Simulation for the OBGYN Resident

Katy Dean, MD

ACOG Annual Clinical and Scientific Meeting
Impact of obesity on cell free DNA testing: a case control study

Gaby Halder, MD

Journal of Investigative and Clinical Urology
Botox Combined with Myofascial Release Physical Therapy as a treatment for Myofascial Pelvic Pain
Female Pelvic Medicine and Reconstructive Surgery
Association between obesity and perioperative morbidity in open versus laparoscopic sacrocolpopexy.

Sarah Holdt Somer, MD

ACOG Annual Clinical and Scientific Meeting
Tdap in Pregnancy: A Quality Improvement Project

Michelle Kuznicki, MD

WAGO Annual Meeting
Brain metastases from Uterine Cancer: Features, Treatment and Outcomes of a Rare Phenomenon

Erika New, MD

ACOG Annual Clinical and Scientific Meeting
Pain perception after office hysteroscopy alone vs. hysteroscopy with endometrial biopsy

Isabel Prieto, MD

APGO/CREOG Annual Meeting
Intrapartum Cervical Exam Module Study

Lisa Sappenfield, MD

ACOG Annual Clinical and Scientific Meeting
1. *The association between surgical route and perioperative outcomes for women undergoing myomectomy*
2. *The association between fibroid weight and perioperative outcomes for women undergoing myomectomy*

USF Obstetrics and Gynecology - Resident Research Day
Friday, June 16th, 2017

Time	Topic	Speaker
8:00–8:15	Welcome	James Palmer, MD
	Moderator: Emad Mikhail, MD	
8:20-8:35	Prolonged hospitalization during high risk pregnancy and preferences for improving care	Jeanette Greene, MD
8:35-8:50	ICE: Intrapartum Cervical Examination Module Study	Isabel Prieto, MD
8:50-9:05	The impact of depression on survival in uterine carcinosarcoma	Rachel Whyntott, MD
9:05-9:20	A Randomized Prospective Trial of Concurrent Office Hysteroscopy and Endometrial biopsy to determine the optimal order of procedures for the evaluation of abnormal uterine bleeding.	Robyn Schickler, MD
9:20-9:25	BREAK	
	Moderator: Stephanie Romero, MD	
9:30-9:45	NICU Admission Rates for Hypoglycemia in Pregnant Women with Type 1 Diabetes Treated with Continuous Subcutaneous Insulin Infusion versus Multiple Daily Injections of Insulin	Megan McDowell, MD
9:45-10:00	Pain improvement after multi-compartment vaginal mesh removal	Michelle Schroeder, MD
10:00-10:15	Maternal early warning triggers and peripartum hemorrhage	Sarah Holdt Somer, MD
10:15-10:30	The effect of BMI on route of sacrocolpopexy and 30-day preoperative outcomes	Gabriela Halder, MD
10:30-10:45	BREAK	
	Moderator: James Palmer, MD	
11:00–11:45	Seven habits of highly effective surgeons	Magdy Milad, MD
