USF ID Celebrates Record Number of Research Presentations at IDWeek!

USF's Infectious Diseases fellows and faculty were well-represented at the Infectious Diseases Society of America's annual IDWeek held in Washington, D.C., October 2-8, 2019. IDWeek is the joint annual meeting of the Infectious Diseases Society of America (IDSA), Society for Healthcare Epidemiology of America (SHEA), the HIV Medical Association (HIVMA), and the Pediatric Infectious Diseases Society (PIDS).

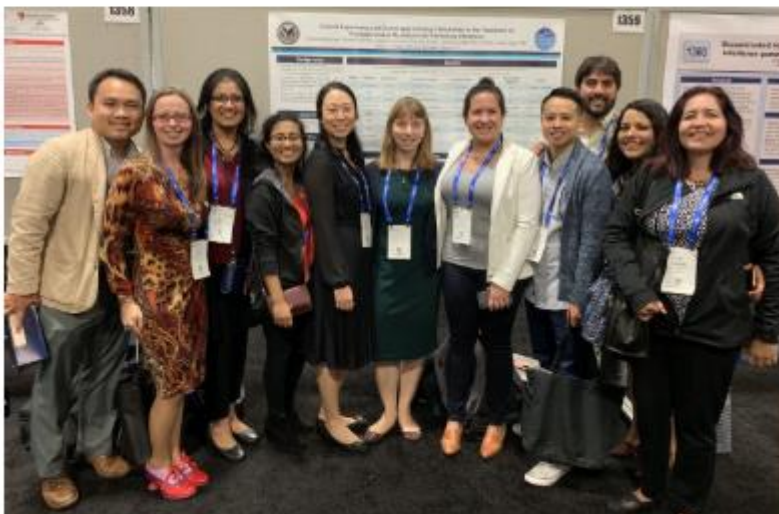

This year the ID Division was collectively responsible for a division record 14 posters that were accepted for presentation. Many faculty, fellows, and medical students were fortunate to attend the conference to present their work as well as attend the daily lecture series, and network with colleagues from across the nation.

2020 Recruitment Timeline:

- July 1, 2019: Applicants complete applications and start applying
 - July 15, 2019: PostOffice opens to programs to begin downloading applications
 - July-November 2019: Interviews conducted
 - October 15, 2019: Application deadline
 - Match results available: November 28, 2019
- We will consider sponsoring an H1 visa for highly qualified applicants (Steps 1 and 2 greater than 460 and passing score on Step 2CS on first attempt).
- Potential candidates can access applications through the [AAMC/ERAS website](#)

IDPodcasts' YouTube Channel Reaches 1 Million Lifetime Views!

Tampa, FL, October 22nd – USF Health's IDPodcasts Youtube Channel, a production of the Division of Infectious Diseases of the University of South Florida Morsani College of Medicine, announced in October 2019 that it has reached its one millionth lifetime view milestone. Although this number is modest in comparison to top 100 YouTube channel rankings with millions of subscribers, IDPodcasts' subscriber base is #1 among all YouTube Channels belonging to the University of South Florida or its medical affiliates. IDPodcast's YouTube channel first went online on January 13, 2012, and now has almost 7,000 subscribers.

Executive Director of the Fulbright Association Visits USF Health and the Florida Department of Health—Hillsborough

This past August 2019, USF hosted Dr. John Bader, Executive Director of the Fulbright Association for a visit to USF Health and the Department of Health in Hillsborough County. Dr. Bader met with USF Leadership to discuss opportunities to increase Fulbright membership within the student community at USF. USF Infectious Disease faculty, Dr. Jamie Morano, hosted Dr. Bader at the DOH where he met with health officials and took a tour of the clinic. USF Health will continue to work with Dr. Bader to promote student involvement in the Fulbright program. Dr. Morano served on the Fulbright National Capital Area Chapter Board of Trustees and served as a Fulbright Scholar to Hong Kong.

Dr. Todd Wills Named New Director of USF Health Office of Continuing Professional Development!

Congratulations to Dr. Todd Wills who was recently named Director of USF Health's Office of Continuing Professional Development (CPD). Dr. Wills currently serves as the Program Director of the USF Health Morsani College of Medicine Physician Assistant Program, and is an Associate Professor of Infectious Disease, in the Department of Internal Medicine.

Dr. Wills will work with deans, faculty, and clinical partners to develop strategic approaches to fulfill the continuing professional education needs of all our healthcare providers. He will work to increase the role of the Office of CPD in supporting USF Health's interprofessional practice. One of his priorities will be to link the continuing professional development program with USF Health's focus on quality health outcomes, and he is responsible for ensuring that the continuing professional education programs meet the highest standards of evidence-based health practice.
