Please join us in welcoming Dr. Tanya Murphy, the new Maurice A. and Thelma P. Rothman Chair of Developmental Pediatrics and the entire Division of Neuropsychiatry. They are located in St. Petersburg at the Children's Health Center, on the 4th floor. Pictured above from left to right are: Dr. Jane Mutch, Speech Language Pathologist; Danielle Bodzin, BS, Research Assistant; Dr. Steve Pence; Dr. Omar Rahman (post doc/research co-ordinator); Dr. Adina Aldea; Dr. Eric Storch and Dr. Tanya Murphy.

Dr. Carmen Alfaro has agreed to be the Medical Director for our ambulatory clinic at the STC. Dr. Alfaro has been the contact person with the USFPG Leadership. She has done a superb job leading the Workgroup on improving the clinic with Dr. Kido and Ms. Casey. The outcome of that effort will be unveiled the first of next week. Carmen will work with each of you to take this clinic to the next level not only as a site for patient care but educational center as well. Please congratulate her on this position and offer her support in this important endeavor.

Dr. Lori Bowers, Dr. Rani Gereige, and Dr. Lewis Rubin: All three physicians have been invited to participate in the The Leadership Institute at USF Health Class of 2010. There were 65 prospective candidates this year and after a rigorous selection process, 25 were chosen. The Leadership Institute is a comprehensive program designed around key competencies critical for successful leadership at USF Health. Congratulations on your selection and good luck with the program !

Dr Luis Maldonado and the USF/TGH Newborn Hearing Screening Program : Have been awarded an AAP CATCH grant to improve hearing screening services to migrant worker families. This will allow the group to produce videos in Spanish to explain their hearing screening program, the results of the tests, procedures for follow-up of failed screens and instructions for obtaining Medicaid for infants of migrant families requiring follow-up. Many thanks to those who supported this project. Congratulations !

Dr. Kersti Linask: Had a new manuscript accepted for publication. This will be published in *Developmental Dynamics* in a special issue on embryonic left-right asymmetry. "Items of Excellence"

By now everyone has probably seen the email publication of "Items of Excellence". This publication will run every two weeks.

What: Items of Excellence (IOE) are summaries of wins and accomplishments that support the vision and strategic goals of the HSC, the College and the department – timely items that we would like everyone to know about. Examples include announcements of recently awarded federal grants, recent recent publication in a major peer-reviewed journal or presentation at a national research conference, top-level appointments and honors, collaborative/team initiatives and accomplishments by departments or colleges, etc. – all leading to national prominence.

Who Can Submit: Anyone at the HSC – deans, chairs, faculty, staff and students.

How: Please report your IOEs to your department or college under the following five categories. Be concise – just the basic facts needed:

Creative Educational Models (emphasis on national prominence, interdisciplinary collaboration)

Research Really Matters (emphasis on national prominence, interdisciplinary collaboration)

Entrepreneurial Academic Practice (successful clinical practice and community outreach programs/projects, collaborations with community partners-- e.g. TGH, Moffitt, VA, ACH, outpatient sites).

Operational/Financial Innovation (streamlining of clinic operations resulting in greater efficiency and profit – scheduling, patient flow, medical records, billing, etc)

People Excellence – Items that demonstrate the Winning Spirit, Creativity and Accomplishments of the people at HSC
