

### From The Chairman

Last Saturday USF knocked off FSU Seminoles in Tallahassee, a remarkable feat. Also impressive is the fact that the USF Pediatric faculty continue to set the standard in research at USF Health. This year, faculty members obtained over two million dollars

from stimulus programs alone. This feat might not make headlines, like beating the Seminoles, but is nonetheless outstanding.

Another accomplishment worthy of notice is next Saturday's Dream Gala, sponsored by the Juvenile Diabetes Research Foundation-Tampa Bay Chapter 2009. Dr. John Malone, Professor of Pediatrics, will be honored for his life long commitment to patients with Type I diabetes. When you see John offer your congratulations on his accomplishments.

I want to thank Barbara Cockream for all of her efforts, including keeping me on track with tasks like this newsletter. I am sure Ana Santos will be similarly helpful and effective in this vein. And as always, thanks to everyone for their continued enthusiasm and hard work.

~ Bob Nelson

### Spotlight

#### Newspaper Headline

Dr. Kiluk and her son Vivek made headlines when Evan Longoria (third baseman for the Tampa Bay Rays) was signing baseballs.

#### Baby Shower

On Friday, Sept 4th Pediatrics Administration got together to celebrate Heather's baby shower.

#### Newborn

Isabella Hartling was born to Heather Hartling on Sept. 7, 2009 at 7:53 AM (5 lb 12 oz. 19 3/4 in ). Please join us in congratulating Mom and Dad.

### Award Spotlight

The Department of Pediatrics would like to congratulate Dr. Patricia Emmanuel on her newly awarded grant, *“Special Projects of National Significance-Health Information Technology for Ryan White Part D Programs,”* which promises improved technological efficiency, quality of data collection, and data exchange for pediatric patients suffering from HIV/AIDS. This will be achieved through use of advanced electronic networking technology, chiefly the establishment of an electronic data warehouse, which will forge electronic links and facilitate data exchange between separate yet interdependent programs focusing on pediatric HIV/AIDS care, including the USF Pediatric Infectious Diseases Division (USF PedsID), CAREWare (CW), and others.

#### Project Goals:

- Add wireless tablets, for real-time data entry and EMR access in exam rooms;
- Electronically link the EMR with the PedsID Database, CAREWare;
- Build a link between the Ryan White Information System (RWIS) and PedsID;
- Initiate a one-way transfer between the CW database implemented by the USF Pediatrics department and the CW database maintained by the Florida Family Aids Network (FAN).

To maintain accuracy and high quality of data obtained, five specific indicators related to a given patient’s health and social service status will be observed: clinical encounter

dates, viral load, CD4 counts, social work referrals, and any recent changes to insurance status.

### eIRB

After months of development, we are rolling out eIRB, a web-based submission system designed to streamline USF IRB review of human research. New system (eIRB) will become mandatory for all clinical investigators on January 1, 2010. For more information, visit <http://www.research.usf.edu/cs/irb.htm>.

### New Employees

Panida Sriaroon	Assistant Professor	Allergy/Immun/Reum
Raquel Hernandez	Assistant Professor	Adolescent Medicine
Jinin Ginem	OPS	EPI
Tristin Trottier	OPS	EPI
Betty Horng	Assistant Professor	Neuro-Psychiatry
Cathryn Bigham	Caseworker	Early Steps

[Announcements](#)

[Birthdays](#)

### Events

#### **Free (seasonal) Flu Shots for Adults**

(18 yrs and above)

When: October 23, 2009 8AM– 4PM

Where: USF College of Public Health  
13201 Bruce B. Downs Blvd., Building#3010  
Tampa, FL 33612

#### **Start! Heart Walk**

When: Nov. 14, 2009 at 8AM

Where: Raymond James Stadium

#### **Children's Gasparilla Parade**

When: Jan. 23, 2010

### Ground Rounds

*Lectures are from 8:00 - 9:00 AM at MacInnes Auditorium– TGH and videoconference to the ACH/USF CRI 1st floor conference room & CMS Building, Room 2004*

#### **September 17: Causes and Risk Factors for Spina Bifida**

Robert Greene, MD

Department of Molecular, Cellular & Craniofacial Biology, Birth Defects Center, University of Louisville

#### **September 24: Evaluation and Management of Hypercalcemia in Infants, Children and Adolescents**

Allen Root, MD

USF Pediatrics, Division of Endocrinology, Diabetes & Metabolism

#### **October 1: Sudden Cardiac Death in Children**

Gul Dudlani, MD

Pediatric Cardiology, All Children's Hospital

#### **October 8: Septic Shock: Update on Therapy for the Generalist**

David Pettigrew, MD

USF Pediatrics

#### **October 15: Overview of Pediatric Gastroesophageal Reflux**

Karina Irizarry, MD

Pediatric Gastroenterology, Hepatology & Nutrition of Florida

#### **October 22: Acute Lymphoblastic Leukemia**

Cameron Tebbi, MD

Medical Director, Pediatric Hematology/Oncology, St. Joseph's Hospital, Tampa General Hospital and Children's Medical Services

#### **October 29: The Pathogenesis of Cardiomyopathy Due to Conduction Defects in Children**

Enid Gilbert-Barnes, MD

USF Pediatrics, Division of Infectious Disease
