

**SPONSORED BY THE DEAN AND THE DEPARTMENT OF  
EPIDEMIOLOGY & BIostatISTICS**

**Qi Dai, MD, PhD  
Assistant Professor of Medicine  
Vanderbilt University Medical Center**

**“Personalized Prevention of Chronic Diseases”**

**Wednesday, February 25, 2009**

**12:00 – 1:00 PM**

**College of Public Health Auditorium  
Room 1023-B**

Dr. Dai graduated from the Shanghai Medical University. He earned his PhD in Epidemiology from the University of South Carolina. He has 18 years experience in large-scale epidemiologic studies of cancer and other chronic diseases. Dr. Dai has extensive experience in molecular epidemiologic studies of nutritional factors and other biomarkers in the etiology of cancers of the breast, endometrium and digestive tract. He is currently the Principal Investigator for two NIH R01 grants and two other grants, including a recent grant funded by the American Institute for Cancer Research. Dr. Dai's current research focus is in the personalized prevention of chronic diseases, including cancer and dementia.
