

Dean's Lecture

“Practicing the ‘Applied’ in Applied Public Health: Using Evidence to Understand Public Health Systems for At-Risk Populations”

Charlan D. Kroelinger, PhD

Team Leader, Maternal and Child Health Epidemiology Program
Centers for Disease Control and Prevention

Friday, April 17, 2015

12:00 pm

Samuel P. Bell, III Auditorium (Room #1023-A)
USF College of Public Health

Dr. Kroelinger is currently Team Leader, Maternal and Child Health Epidemiology Program at the CDC. This is a full time scientific position with administrative and supervisory responsibilities focusing on national leadership on maternal and child health issues. In this position she provides scientific oversight, review, and clearance of all work produced by staff including manuscripts, abstracts, and reports. She also leads in the development of programmatic and scientific products for use by partners including publications in the peer-reviewed literature and web-based information.

Dr. Kroelinger received her Doctoral degree from the University of South Florida, College of Public Health in Epidemiology & Biostatistics.
