among Children in the United States and its Association with
Health Care Access and Quality”**

**Tuesday, November 17, 2009
9:00 – 10:00 am
COPH Auditorium, Room #1023A**

Michael Kogan holds a Ph.D. in Epidemiology from Yale University. He is currently the Director, Office of Data and information Management for the Maternal and Child Health Bureau. In this position he is responsible for directing activities of the office with an emphasis on 1) maternal and child health research; 2) building the data capacity of federal, state and local areas in maternal and child health; and 3) building the maternal and child health epidemiology capacity in the United States.

Prior to this position, he worked as a Senior Epidemiologist at the National Center for Health Statistics, Centers for Disease Control and Prevention. He serves on the editorial boards of the Maternal and Child Health Journal and the American Journal of Public Health. His research interests include: the effect of prenatal and pediatric care services on maternal and child health, the effect of lack of health care coverage on access and continuity of care, multiple births and determinants of preterm birth.
