

USF College of Public Health Dean's Lecture Series

presents

Mr. Donald Post, EMT, CIC

*"An Infectious Prick"*

in recognition of World AIDS Day

Thursday, November 29, 2012 at 9 am

Samuel P. Bell, III Auditorium - 1023-A

In honor of World AIDS Day, Mr. Post will share his unique perspective on HIV/AIDS. He has witnessed occupational exposures to the virus and will highlight the risks for health care providers, discuss why it is underreported, and more.

Mr. Donald Post has more than ten years of experience in the health professions. He served as an EMT in Quincy, Tallahassee, and Orlando, Florida. Additionally, he is a member of the State Emergency Response Team based in Tampa and is a HIV/AIDS consultant with the Bristol-Myers Squibb Virology Department.

When he's not saving lives, Mr. Post's campus endeavors keep him busy. He is advisor to the USF chapter of Pi Kappa Alpha Fraternity, Inc., a graduate assistant for two environmental health classes, and is pursuing a master of public health degree in global communicable diseases from the University of South Florida. Mr. Post earned a bachelor of science in psychology from the Florida State University.
