

Stage 1: Is This Right for our Hospital?

Pre-Planning Considerations:

- OB leadership support is critical for LOMC verification. Be sure to identify both a physician and nursing leader who can champion this effort among colleagues.
- Administration support is also crucial to the success of LOMC verification. The process takes both time and resources and will involve cooperation from several departments that interface with the obstetric units in the hospital.
- Consider whether you would like all hospitals within a hospital system/region to apply concurrently or individually.

Use the following LOMC resources to educate hospital leadership:

- LOMC Overview for Hospitals (customizable PowerPoint presentation)
- LOMC Brochure
- ACOG/SMFM Obstetric Care Consensus document
- October 18, 2022 Informational Webinar
- January 17, 2023 Informational Webinar
- August 3, 2023 Informational Webinar
- The Joint Commission Levels of Maternal Care website
- LOMC Quick Start Checklist
- LOMC Suggestions from Colleagues
