Our Providers:

**Neil Alan Fenske,
MD, FACP**

Professor, Chairman
and Medical
Director

Named in 2008 as one of Women's Health Magazine's Top 17 Dermatologists for women in the nation and the only physician in any specialty in the greater Tampa Bay area, Dr. Fenske is Professor and Chairman of the Department of Dermatology & Cutaneous Surgery at USF Health Morsani College of Medicine. He is Medical Director of the USF Health Cosmetic and Laser Center, the bay area's all-inclusive skin treatment center staffed by board-certified teaching dermatologists and nurse practitioners. Dr. Fenske has been widely recognized by his peers in America's Top Doctors, America's Top Cancer Doctors, America's Best Doctors and the Guide to America's Top Physicians. His areas of special interest are skin cancer, melanoma, psoriasis and cosmetic dermatology.

**Nicole Nations,
MSN, ARNP-C**

Cosmetic
Practitioner, Certified
Laser Safety Officer

Nicole Nations completed her undergraduate studies with honors from Florida State University in 2007 and received her Master's in Nursing at the University of South Florida in 2011. Nicole graduated with Sigma Theta Tau Honors. She worked at Tampa General Hospital as a nurse prior to joining the USF Health Team. Since nursing school, her passion has always been in the area of cosmetics which led her to advanced training in Cosmetic Dermatology. Nicole is an expert in the field of cosmetic lasers and trains other providers on laser procedures, techniques and advanced laser technology. Nicole's desire is for her patients to achieve the best result possible which drives her to always stay educated on the latest and safest therapies that the cosmetic industry has to offer.

About:

At the USF Health Cosmetic & Laser Center we are committed to providing state-of-the-art technology aimed at attaining impressive results, without sacrificing patient safety or comfort. We offer esthetic procedures performed by highly trained experts in the field of Cosmetic Dermatology and Laser treatments. We are the Bay Area's all-inclusive skin center offering the most extensive range of lasers with the newest and most advanced technology.

Consultation:

The consultation allows us to evaluate your skin through the Visia skin complexion analyzer and customize a treatment plan for your skin's exact needs. During this consultation we will take digital photos (pictured below), determine key concerns and compose a strategy for achieving results. We will provide you with information on the latest technology and answer questions that you have about your skin. Our skin consultation is a \$75 charge that is refundable back toward a service or product purchase of \$250 or more.
