Research Directory:

The Research Directory employs the most sophisticated search technology to identify USF Health investigators who match your search terms. It provides up-to-date information on grants and published materials and is designed to facilitate interdisciplinary research. Please visit our website: <http://health.usf.edu/medicine/research/index.htm> for more information.

Note: Regulatory requirements are constantly changing and certain types of research require additional certifications. Please contact your department administrator for updates on any additional certifications that may be needed.
